

To Whom It May Concern:

I'm writing concerning the **Legislative file 21856, Class B Combination license for My Buddies LLC, Agent Dale Wells, 4325 Lien Rd Madison, WI 53704.**

**I'm one of the investor in this business. I'm concerned that you are looking at this as if its Jason and Joe's business. Dale Wells and myself are the investors. Jason and Joe will be are employees. They have no authority to write check for business or make any business decisions.**

**I have lived on the eastside of Madison for 58 years. I have also worked on the eastside my entire working career. For 21 years I was the bakery/deli manager for Kohls on E Washington Ave . My father was an owner of the concession stand for the legally blind at Hill Farms for 40 years. I also have rental property on the eastside of Madison. I have years of experience with book keeping threw Kohls and my rental properties As you can see this business venture has been thoroughly thought out. And comes with years of experience. Along with my full time job I have been a caregiver for my uncle for 25 years. Also both of my legally blind parents for the last nine years. I'm the legal guardian of my granddaughter while her mother is deployed in Iraq. Because of all my obligations I have not been real involved in the politic involved in the linencing . Due to the recent death of both my parents. My uncle is now in Hospice with end of life near. My daughter's deployment is done in June. I now have time to be more involved in the hands on daily management of the business.**

**I also want to remind you . The same exact license that we are applying for was granted to Jason Wells in July of 2010 in Cottage Grove. This was also where Jason was charged with his THC felony 13 years ago.**

**Dale and I have lots of money riding on this business. We will be doing everything in are power to make this work. The will be no Hip Hop Music. This will be a family oriented business. It will be a positive assets to the eastside of Madison. Jason and Joe's past is there past. I fell it is very unfair to base the discussion of our liquor licenses on there past. As far as there past business ventures has nothing to do with our business. Because of their past experiences along with our guidance I feel they will be a postive asset to our sucess.**

**Thanks for your time.**

**Debra Wells**
