**Re: Proposed Sidewalk & Terrace Construction Project & Public Hearing**

The City of Madison is proposing to make some improvements to the sidewalk and terrace on N. Hamilton St. during the summer of 2014. The limits of this project are on the east side of N. Hamilton St. between Mifflin St. (Capitol Square) and Webster St. (Outer Loop). This proposed project is described in more detail below. Enclosed with this letter is a notification for the Public Hearing before the Board of Public Works. The date, time and location of the public hearing can be found on the notification.

On this portion of N. Hamilton St., the existing trees were planted in tree pits, which are openings in the concrete sidewalk. The trees were planted shallow, so the tree pit areas are raised above the adjacent sidewalk. These pits have left less space for the sidewalk, which, in an area with high pedestrian traffic, makes it more difficult for pedestrians to move through. Also, the narrower sidewalk makes it more difficult for the City Mall Maintenance to clear snow from the sidewalk. When the snow is cleared from the sidewalk, the equipment scrapes the mounded tree pits, leaving ruts. The mounded tree pits also make it more difficult for people exiting parked vehicles on the street.

Due to the problems caused by the tree pits for pedestrians, maintenance and accessibility, the City is proposing to remove the tree pits and replace them with additional concrete sidewalk with embedded tree grates for new tree plantings. All of the existing trees on the east side of this block of N. Hamilton St. (nine trees total) are proposed to be removed. The existing trees were planted shallow, which prevents the new tree grates and sidewalk from being installed evenly with the existing sidewalk. New trees will be planted in the tree grates following the project. Also, pieces of the mainline sidewalk will be replaced as needed in order to repair any damaged or unsafe sections.

Construction on this proposed work on N. Hamilton St. is scheduled to begin during the summer of 2014, but it is planned to be included as part of a single contract with work in other areas of the City. The actual start date of the work will depend on the contractor that wins the bid, but the adjacent properties will be notified before the work actually begins. It is anticipated that once construction begins, it will take approximately one week to complete. Access will be maintained to the adjacent properties at all times during construction.

This project will also involve special assessments to the owners of property adjacent to the project. The property owners will be assessed for the concrete sidewalk work that is included with this project. This includes both mainline sidewalk work as well as concrete work in the terrace. The City and adjacent property owners share the costs to remove and replace sidewalk on a 50/50 basis, and all other items, including the tree grates and the tree removal and replacement, will be paid for by the City.

Enclosed with this letter is a Schedule of Assessments, which shows the estimated costs for each property adjacent to the project. These estimated assessments already take into account the cost sharing as previously described. After the work is complete, a final assessment will be calculated based on bid prices and work actually performed. The final assessment, which
