Responses to CSC Agency Question Log-Youth:

1. This is a new proposed program.
2. 5 days a week
3. We estimated that it will be about 30 hours week
4. Our proposed program would an on-going. However, certain activities, such as financial education, mentor with professionals, summer activities, leadership training, will have set beginning and end dates.
5. I am not sure what the word "complete" the program is related to. Our proposed program wants to work with about 30 youths and we hope to have at least 20 youth completed the program. This completion will be measured by number of attendant hours, progress in job search and being employed, and overall satisfactorily accomplishment.
6. With the current bad job market, our optimistic goal is place about 15 youths in employment. While we may not be able to place more youth in employment, we hope our overall youth career opportunity and leadership trainings will allow the youth to be more effective in future job opportunity.
7. We encountered the budget worksheets in the application. Maybe, our budget shows cut of working hours. If our proposed funding is awarded, we do not intend to cut hours.

Sincerely,

Koua Vang, Executive Director
