Please see my comments below regarding the closure of our stops. This is a significant issue for our neighborhood. Thank you.

Please refer to the comments below and these additional comments.

We use the stops at Hargrove and Walter in the evening. We choose not to use the East transfer point in the evening hours for safety reasons. If you take away this bus stop, we will have to choose to drive to work or school on days where our schedule runs later.

Additionally, many in our neighborhood choose to live in smaller homes and live closer to the capital and schools so we are able to live greener life style which allows us to commute by bus and bike.

This email is feedback for the public hearing regarding closure of the stop.

Our neighborhood has had a turnover during the last couple of years. It consists of younger couples who appear to commute to work or school. My family also commutes by bike or bus.

In addition, there are a number of children who do or will pick-up the school bus at this location. Closure of this stop makes taking the bus less convenient for tax payers that live in this commuter neighborhood. Tax payers who also pay for their children to take the bus to school.

The bus stop is on the direct route so it is effortless to have it there. If you move the stop it makes a difference for those who depend on it.

Thank you,

Nicole Talbott Settle
