To Carol and the Central Library Staff,

As people who work with homeless individuals, we wanted to take this opportunity to express our gratitude to you and your staff for going far beyond your regular library duties to assist us in our work with the homeless population of Madison. We appreciate your efforts in maintaining a safe and supportive environment for struggling people (who are appreciative and grateful as well, though you may not hear this).

Your much needed generosity in allowing us to have regular space at the library each week has been a blessing for us and those we've been able to serve. We've been able to help many people since starting walk-in services at the library over a year ago, and we hope to continue this program for some time to come. These are individuals who might not otherwise have received aid, whose lives have been changed for the better as a direct result of your desire to make a difference. Thank you!
