I am writing to let you know that a bike path is totally unnecessary between Tree lane and Old Sauk. It doesn't hook up to other paths, Westfield road is wide enough for bikes and Sauk Creek drive is a safe residential road to bike on. It's a waste of money that is needed for other things. Not sure you could even make a path that won't cross the waterway at some point. With a heavy rain you don't want people back there it's dangerous. Thank you. We live in the area affected and would appreciate being heard.
