APR 7 (Order 15)

Increased outdoor gatherings, no masking required outdoors

MAY 5 (Order 16)

Capacity limits increased for businesses and restaurants/taverns

We're still maintaining a high number of staff to continue testing and vaccination clinics.

Testing Update

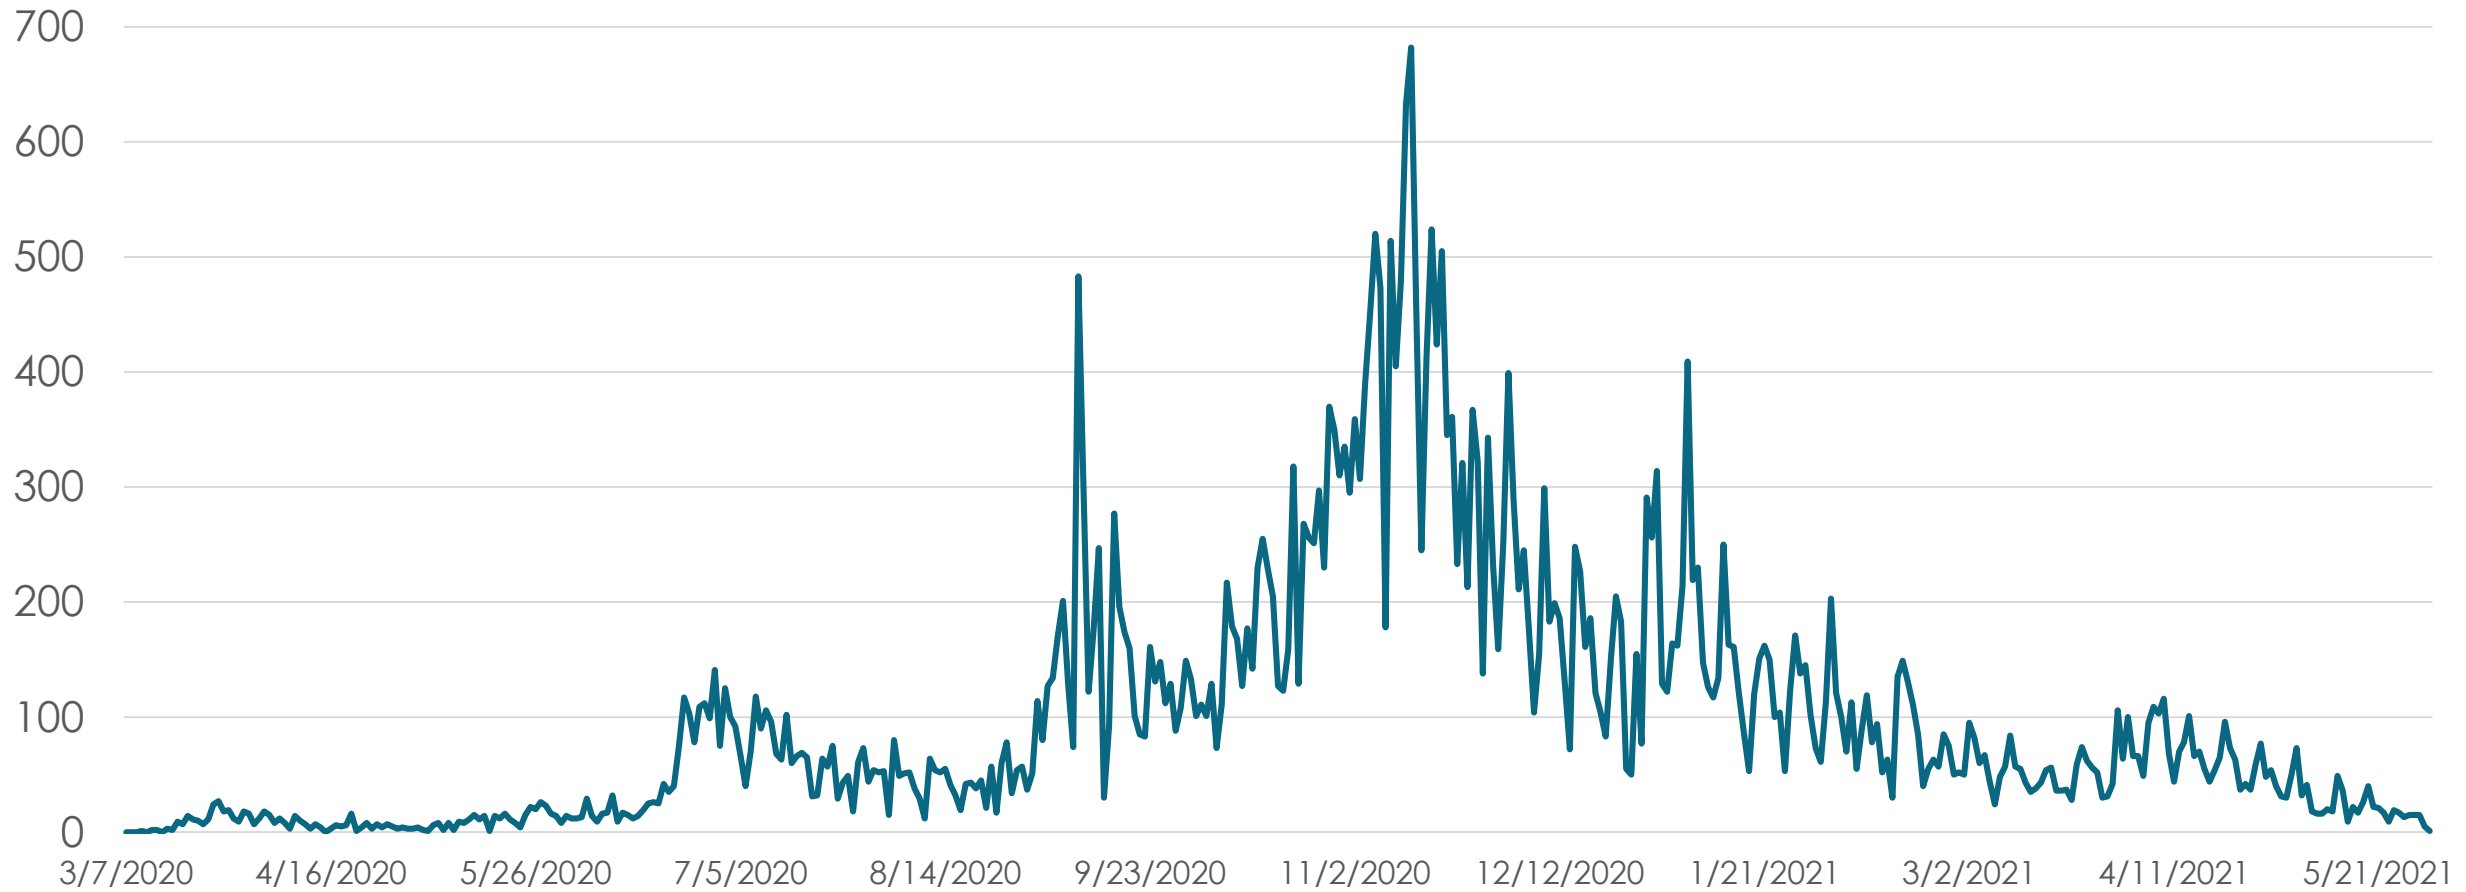

As of June 1:

**South Madison test site:
12,745 tests**

**Alliant test site:
424,834 tests**

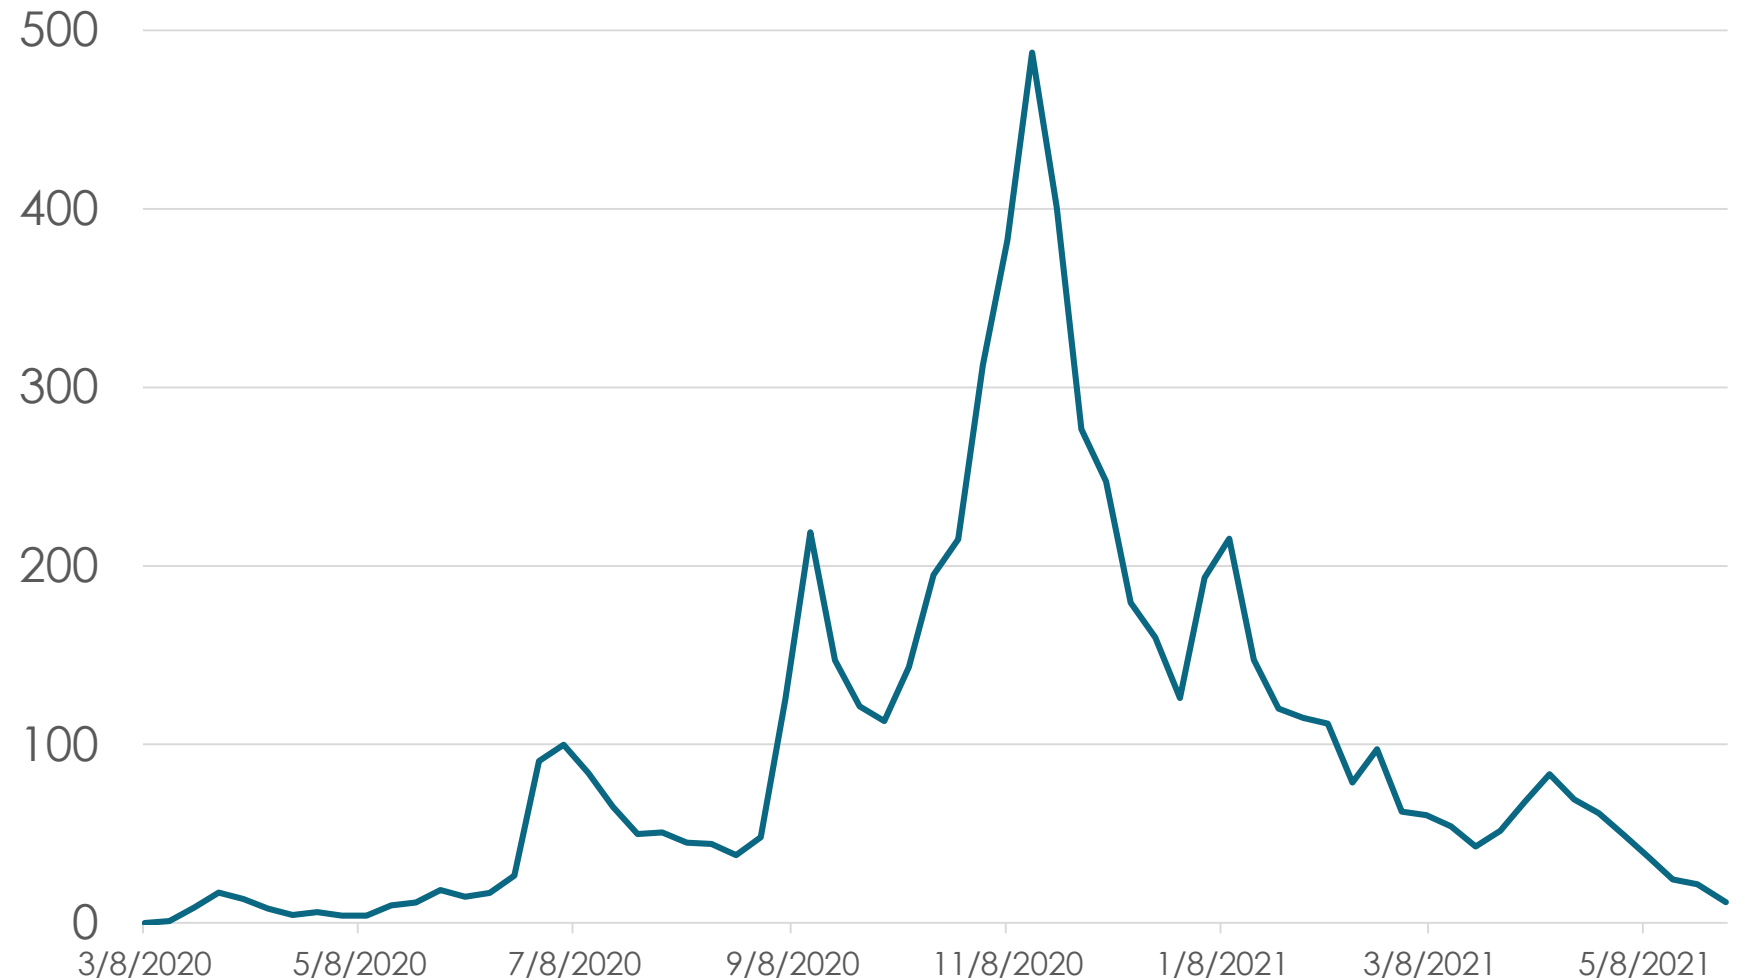

44,800+ people have tested positive for COVID.

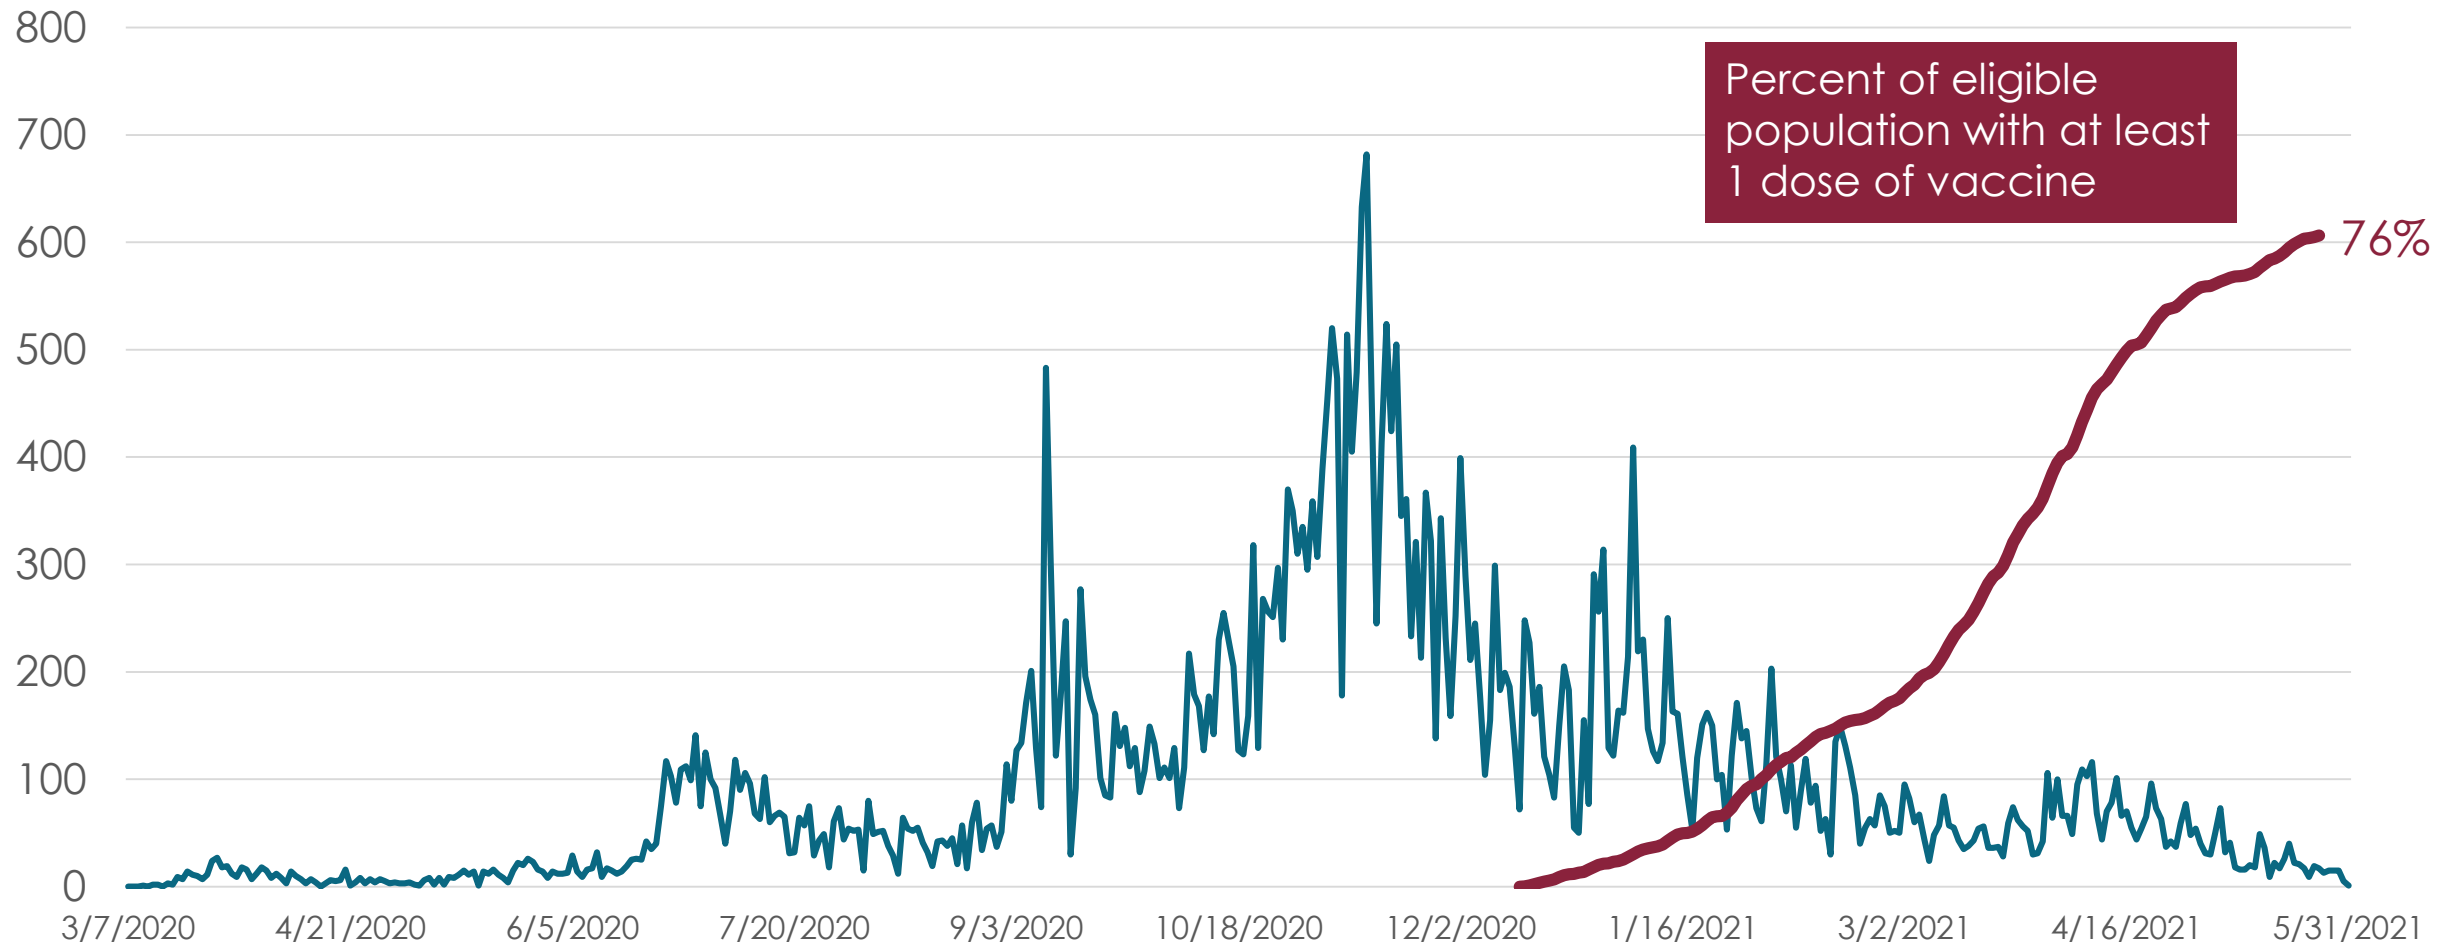

Our 7-day average has fallen dramatically.

At the peak, the 7-day average number of cases was 488.

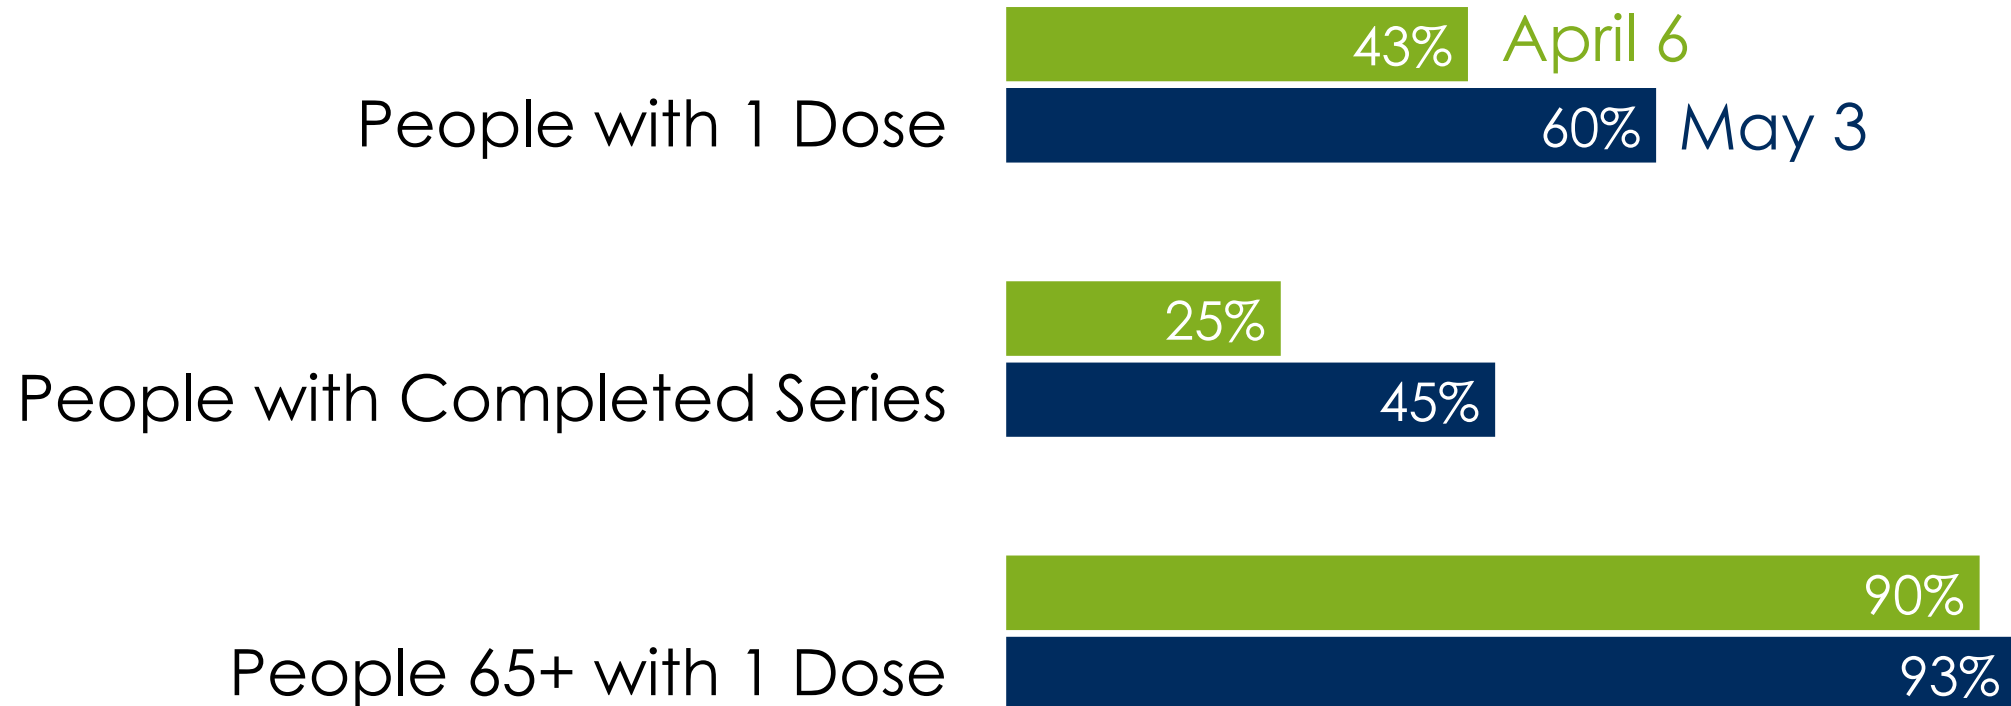

On May 31, it was 12.

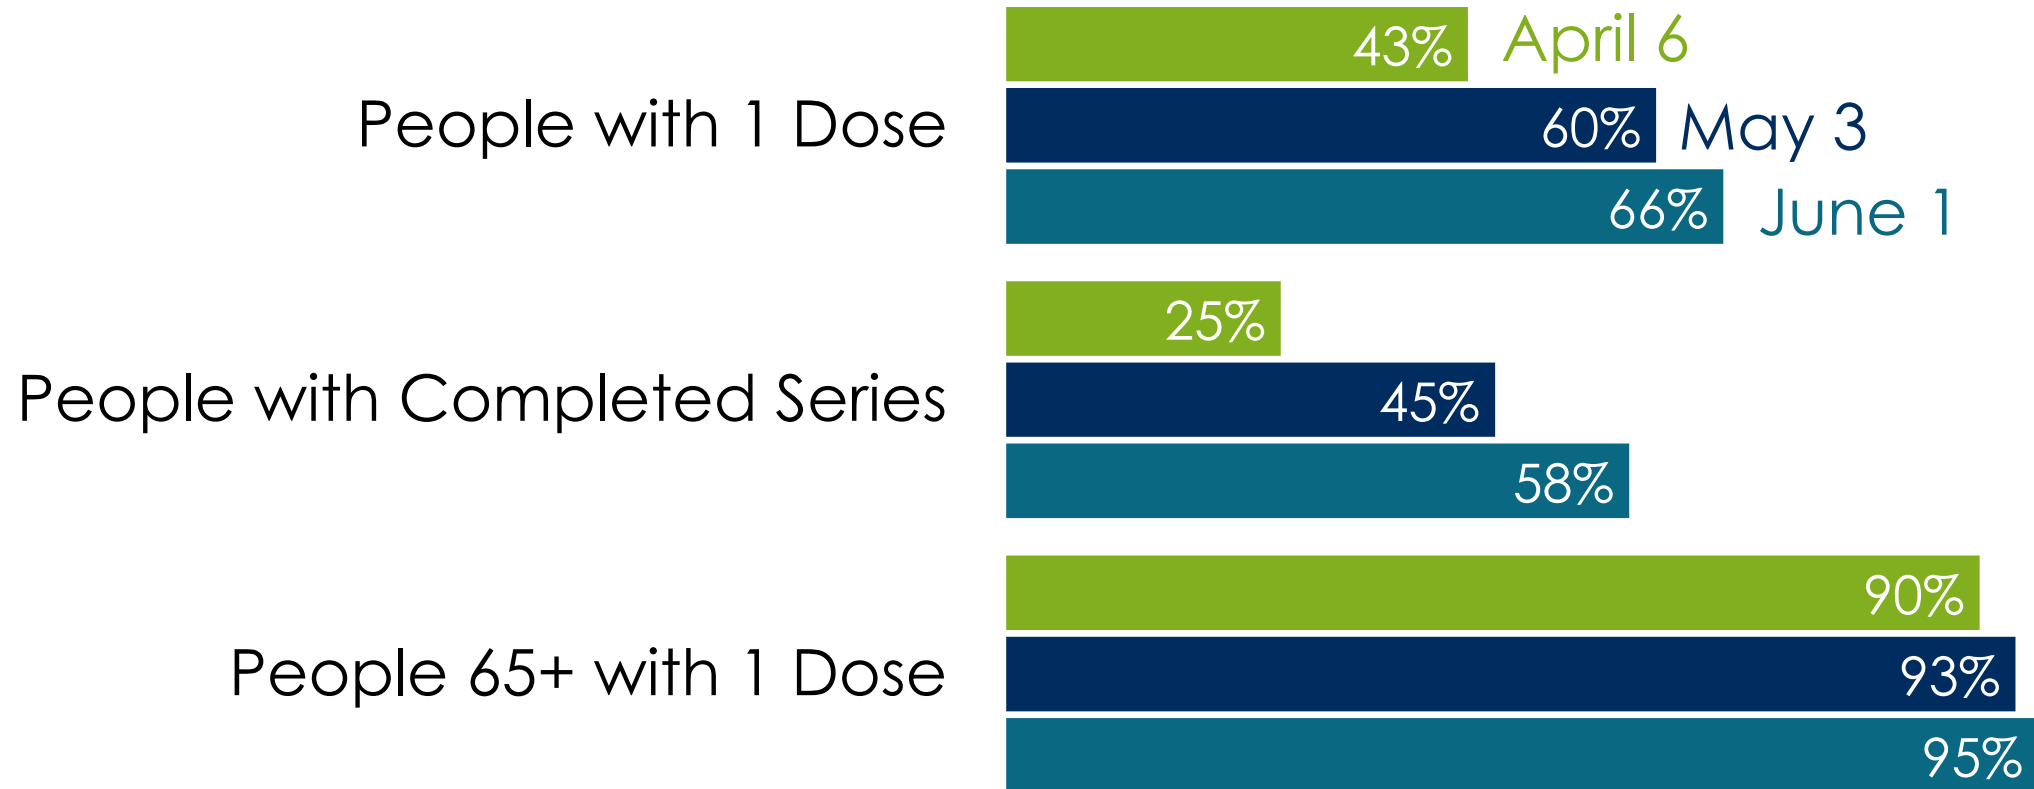

As vaccination has gone up, cases have gone down.

COVID-19 Vaccine

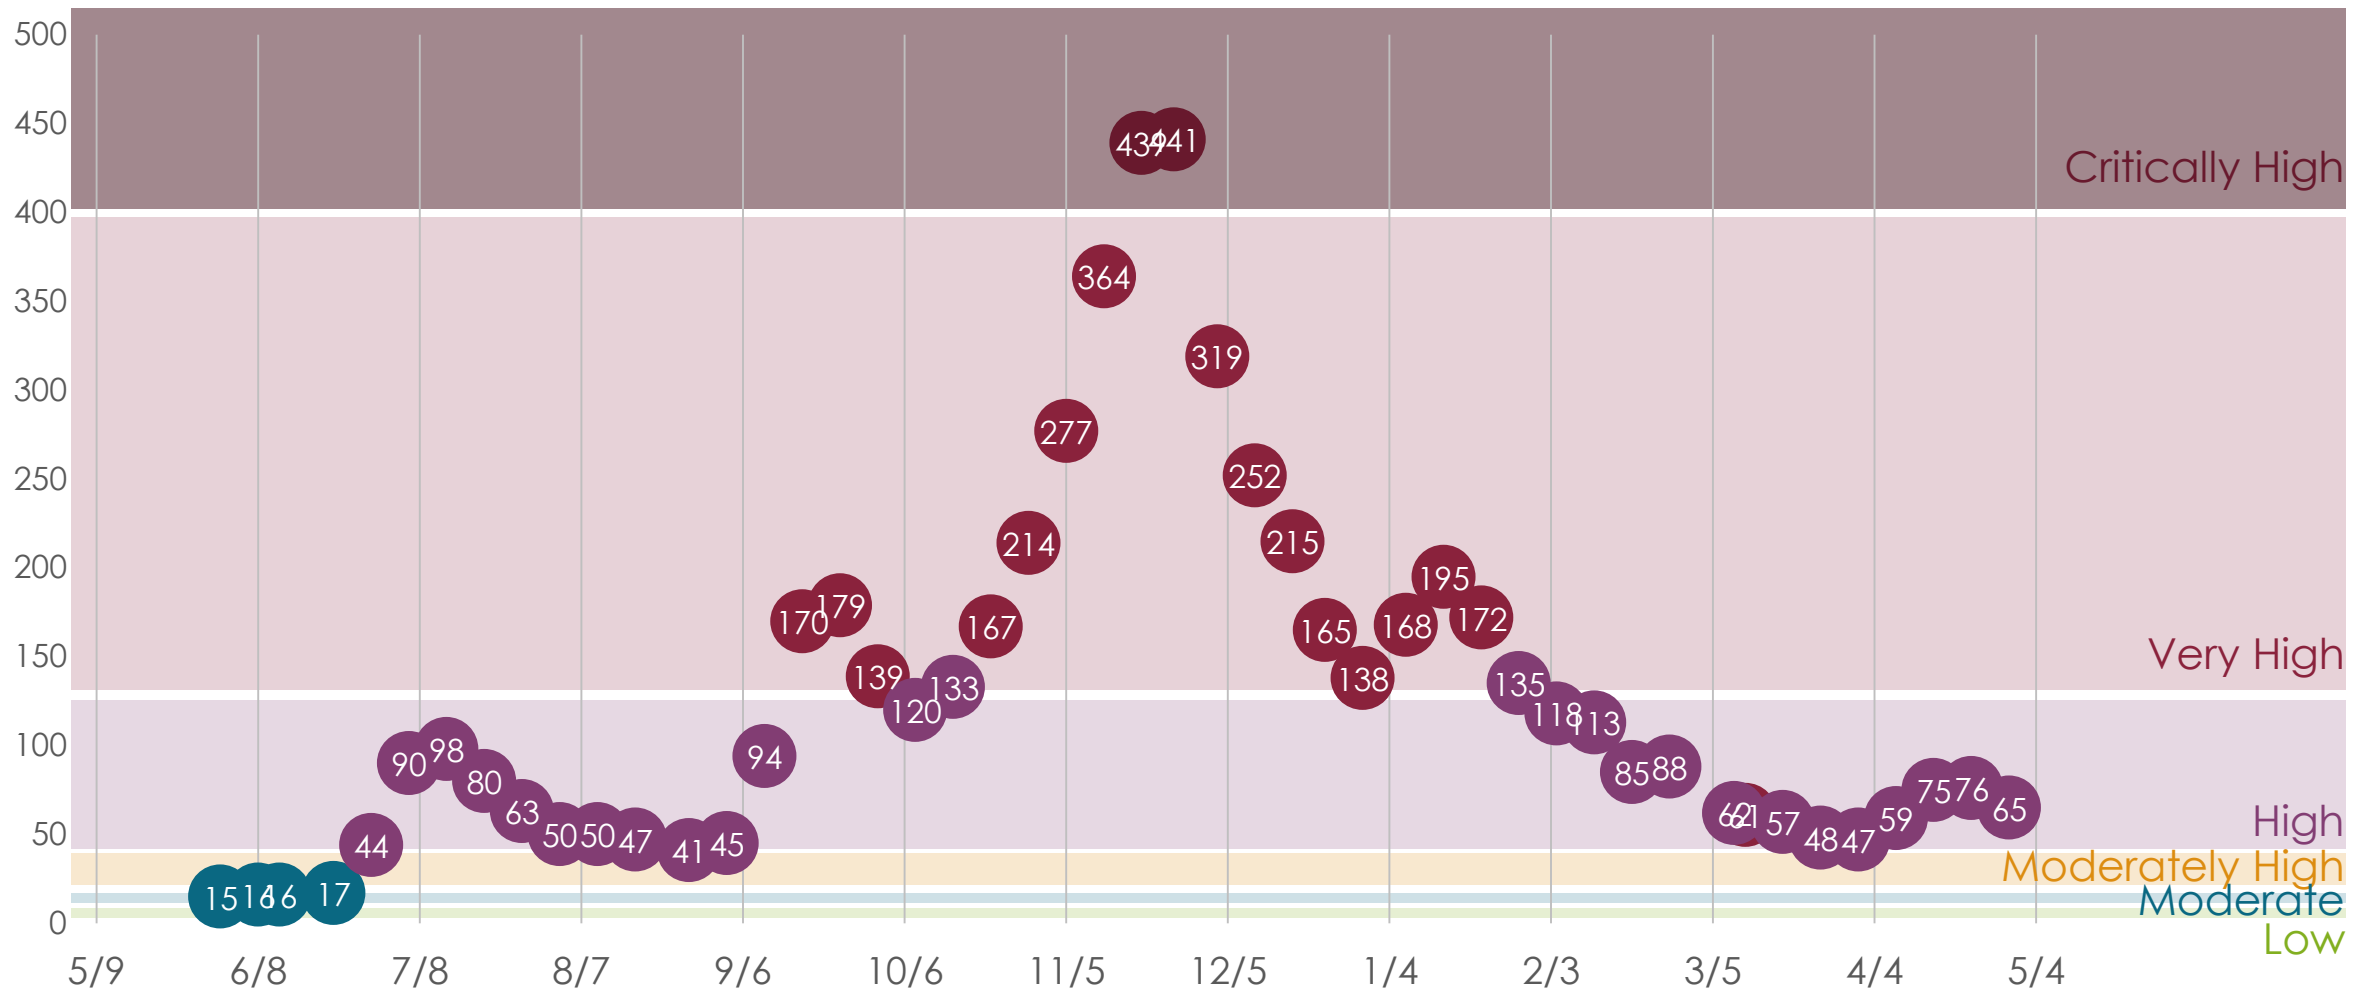

COVID-19 Vaccine

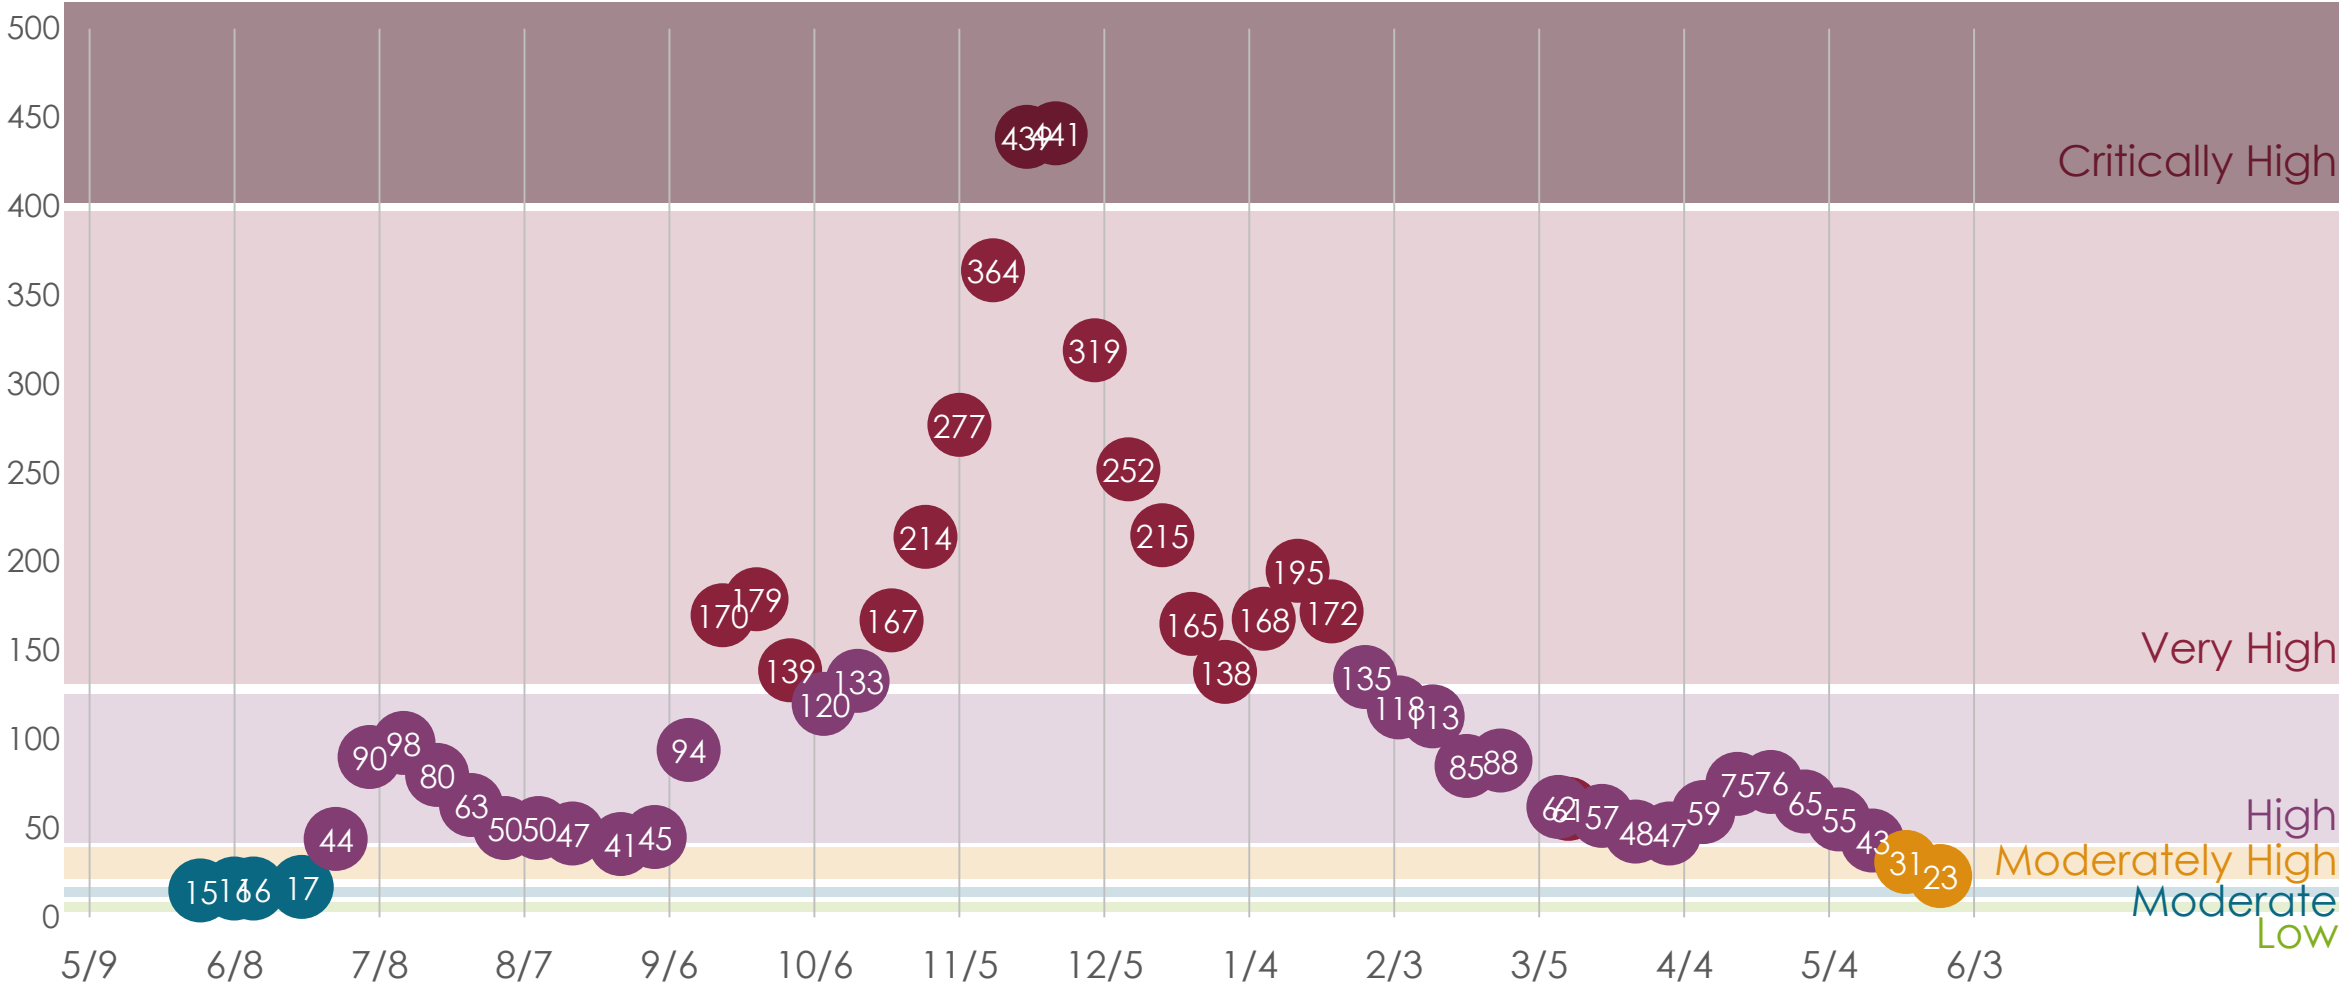

DATA

The last time we met, our 14-day averages looked like this:

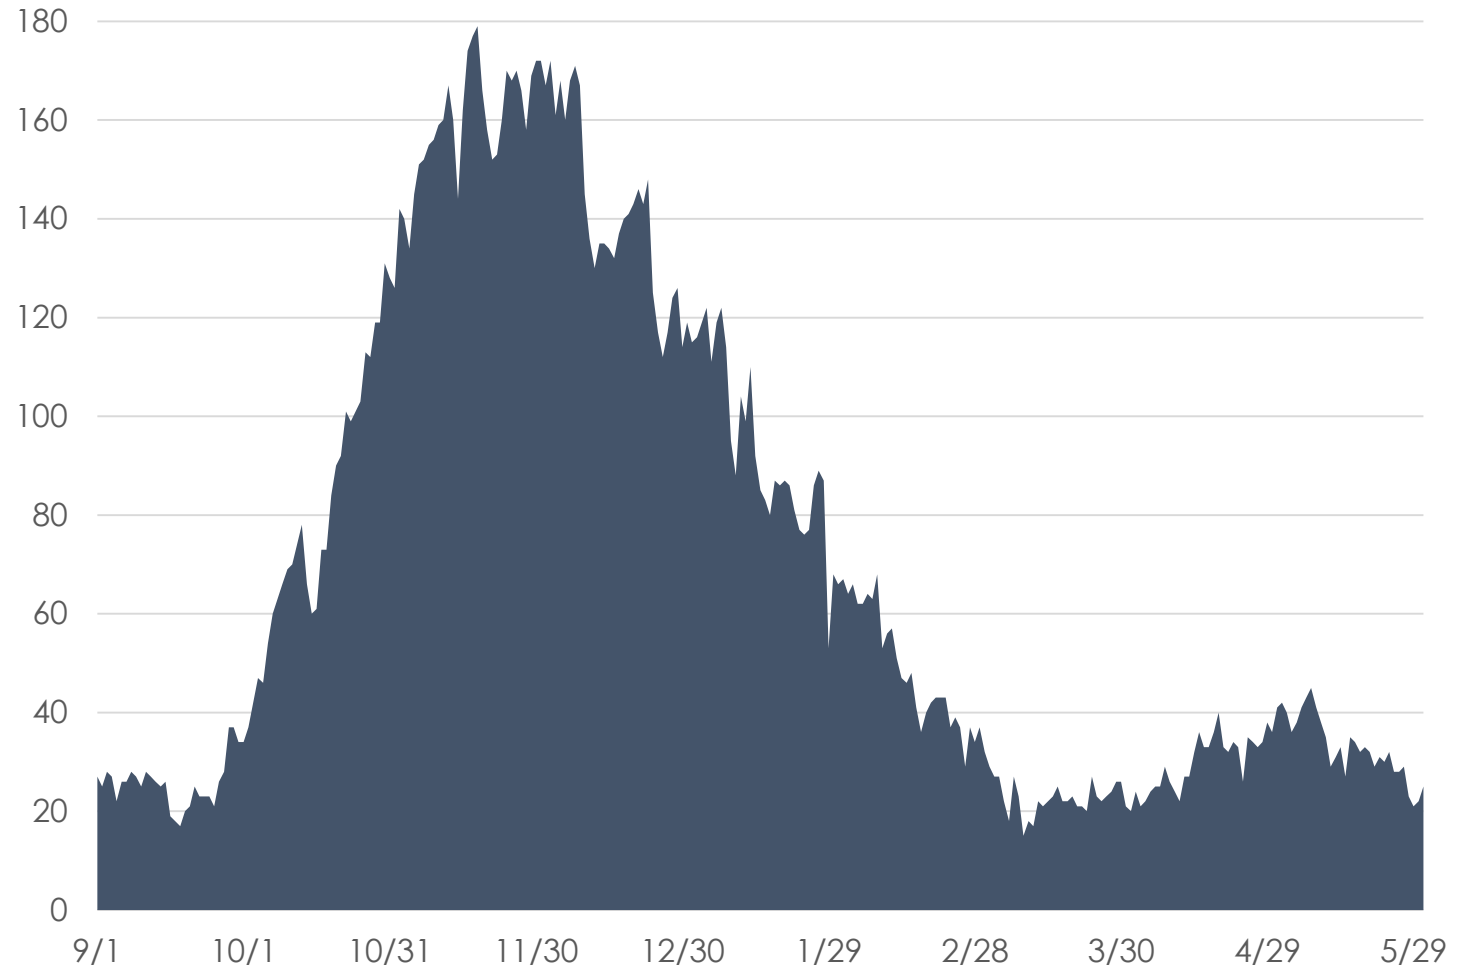

Our current 14-day average

Hospitalizations

Hospitalizations are still 5-fold less than they were in late fall.

Today there are 23 people hospitalized.

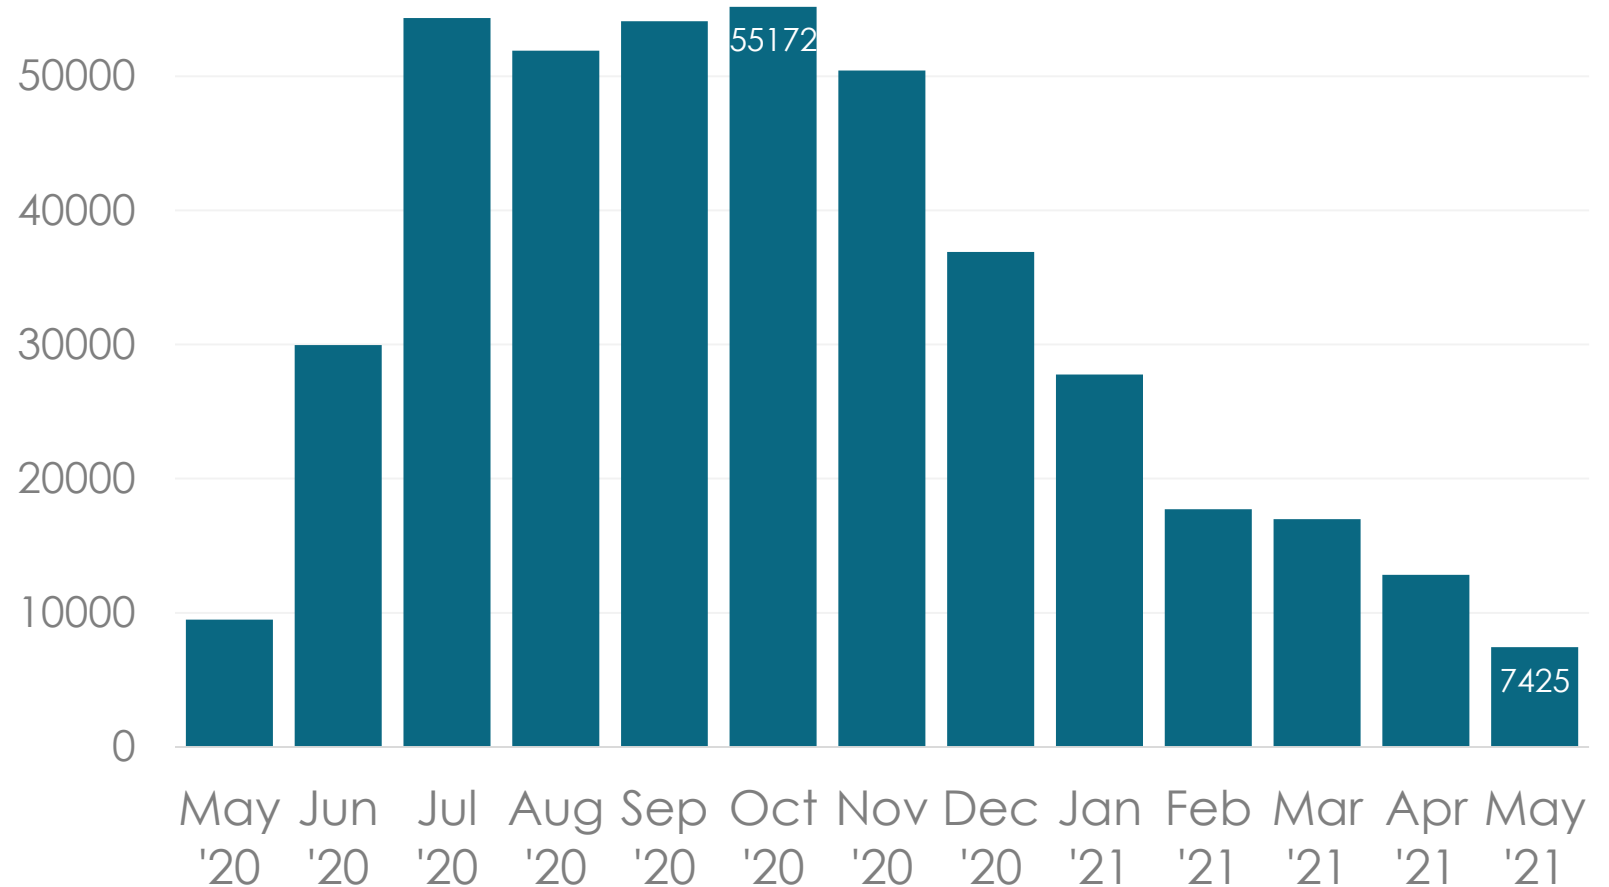

LOOKING

AHEAD

Transitioning Testing

There were about 48,000 fewer tests last month at Alliant Energy Center than at the peak in October.

Transitioning Testing

Given the decline of testing at Alliant and the options throughout the community, we'll be moving testing to South Madison on June 29:

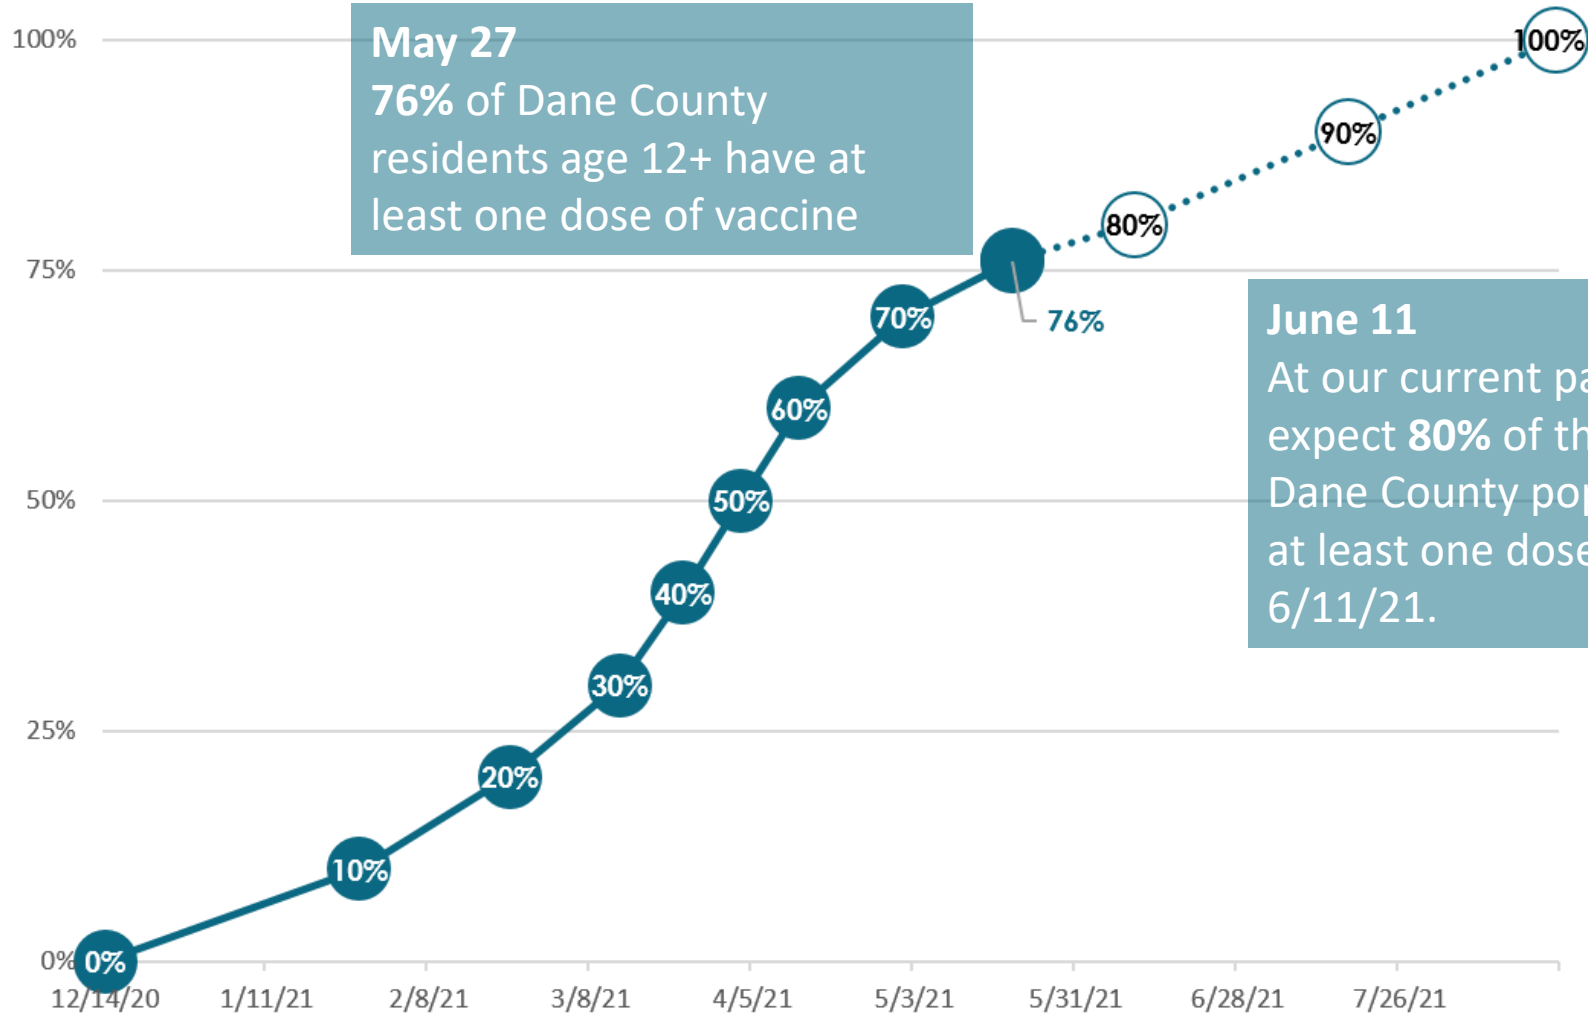

- Tuesdays (8-4)
- Thursdays (12-8)
- Saturdays (8-4)

Vaccination Projection

Share of Dane County residents age 12+ with at least one dose of vaccine

- actual
- projected

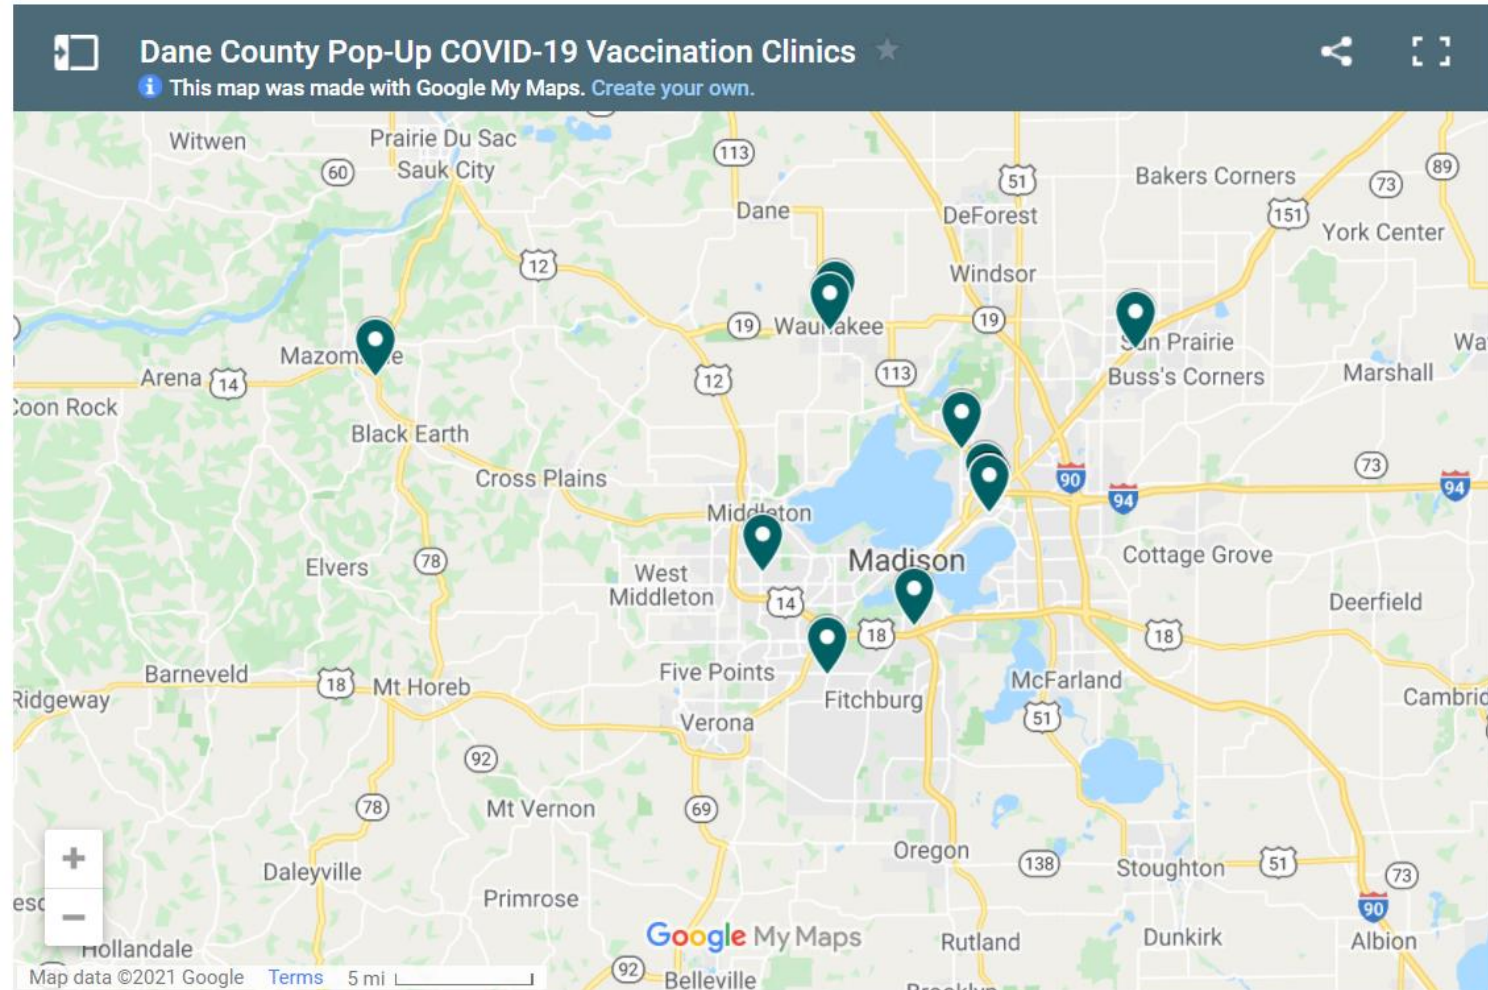

May 27
76% of Dane County residents age 12+ have at least one dose of vaccine

June 11
At our current pace, we could expect 80% of the eligible (12+) Dane County population to have at least one dose of vaccine by 6/11/21.

Transitioning Vaccination

We are also transitioning to providing mobile clinics and vaccination at our permanent sites so we can vacate Alliant.

Promoting Vaccination

Let's bring it home, Dane County! Get the vaccine.

¡Vacúnate hoy Condado de Dane!
