Approval of a request to rezone a portion of a lot addressed as 9502 Watts Road from TR-P (Traditional Residential–Planned District) to CC-T (Commercial Corridor–Transitional District), and amending the TR-P master plan for the “Acacia Ridge” subdivision; consideration of a demolition permit to allow the single-family residence at 645 South Point Road to be demolished; consideration of conditional uses in the Commercial Corridor-Transitional (CC-T) and Traditional Residential-Planned (TR-P) zoning districts for multi-family dwellings with eight (8) or more units; consideration of conditional uses in the CC-T and TR-P districts for a residential building complex with three buildings containing 189 apartments and flex space; consideration of conditional uses in the CC-T and TR-P districts for outdoor recreation for the complex; and approval of a Certified Survey Map (CSM) to re-divide two lots to accommodate the residential building complex (Forward Management, Inc./ The Edison, LLC). [ID 56866, 56548, and 56577; LNDUSE-2019-00079 and LNDCSM-2019-00033]

Gentlemen;

At its September 3, 2019 meeting, the Common Council **approved** the zoning map amendment and Certified Survey Map. The Plan Commission **approved** the demolition permit and conditional uses for the residential building complex at its August 26, 2019 meeting. Approval of the land division and conditional use are subject to the conditions in the following sections, which shall be addressed prior to final approval and recording of the CSM and issuance of demolition and building permits for the residential complex.

Please contact Tim Troester of the City Engineering Division at 267-1995 if you have questions regarding the following twenty-seven (27) items:

1. The median cut on South Point Road will not be allowed. The driveway from South Point will be right-in/right-out only at this time. Left-in access may be permitted with future development of the property to the north. Any such future access improvements will be the sole responsibility of the developer at that time.

2. The developer will be required to build public sanitary sewer along South Point Road to the north property limits.
3. The stormwater management plan is required to demonstrate how to safely pass a 100-year storm event in public right of way and easements and safely pass a 500-year storm event without damage to any buildings or structures.
4. The minimum building opening elevation shall be 1075.0 or higher.
5. The construction of this project will require that the applicant shall enter into a City/ Developer agreement for the required infrastructure improvements. The applicant shall contact City Engineering to schedule the development of the plans and the agreement. The City Engineer will not sign off on this project without the agreement executed by the developer. Note: Obtaining a developer's agreement generally takes approximately 4-6 weeks, minimum.
6. This development is subject to impact fees for the Lower Badger Mill Creek Sanitary Sewer and Stormwater Management Impact Fee District. All impact fees are due and payable at the time building permits are issued. The following note shall put on the face of the plans: "Lots/ buildings within this development are subject to impact fees that are due and payable at the time building permit(s) are issued."
7. The applicant shall provide proof of septic system abandonment from Public Health-Madison and Dane County as a condition of plan approval.
8. The developer shall construct public sanitary sewer, storm sewer, and drainage improvements as necessary to serve the lots within the CSM.
9. All outstanding Madison Metropolitan Sewerage District (MMSD) charges are due and payable prior to City Engineering Division sign-off, unless otherwise collected with a Developer's/ Subdivision Contract. Contact Mark Moder (261-9250) to obtain the final MMSD billing a minimum of two (2) working days prior to requesting City Engineering signoff.
10. The site plan shall be revised to show all existing public sanitary sewer facilities in the project area as well as the size, invert elevation, and alignment of the proposed service.
11. This project falls in the area subject to increased erosion control enforcement as authorized by the fact that it is in a TMDL zone. The project will be expected to meet a higher standard of erosion control than the minimum standards set by the Wisconsin Department of Natural Resources (WDNR) in order to comply with TMDL limits.
12. An erosion control plan and land disturbing activity permit shall be submitted to the City Engineering Division for review and approval prior to grading or any other construction activities. The Preconstruction Meeting for Public Improvements shall not be scheduled prior to issuance of this permit. The applicant shall demonstrate compliance with Section 37.07 and 37.08 of Madison General Ordinances regarding permissible soil loss rates. The erosion control plan shall include Universal Soil Loss Equation (USLE) computations for the construction period. Measures shall be implemented in order to maintain a soil loss rate below 5.0-tons per acre per year.

13. The applicant shall submit, prior to plan sign-off but after all revisions have been completed, a digital CAD file (single file) to the Engineering Division with any private storm and sanitary sewer utilities. The CAD file shall be in a designated coordinate system (preferably Dane County WISCRS, US Ft). The single CAD file submittal can be either AutoCAD (dwg) Version 2013 or older, MicroStation (dgn) V8i Select Series 3 or older, or Universal (dxf) format and shall contain the only the following data, each on a separate layer name/level number. The digital copies shall be drawn to scale and represent final construction including: building footprints; internal walkway areas; internal site parking areas; other miscellaneous impervious areas (i.e. gravel, crushed stone, bituminous/asphalt, concrete, etc.); right-of-way lines (public and private); plat name and lot lines (metes & bounds parcel lines if unplatted); platted lot numbers (noted "unplatted lands" if not platted); lot/plat property dimensions; street names; private on-site sanitary sewer utilities (including all connections to public sanitary); private on-site storm sewer utilities (including all connections to public storm). All other levels (contours, elevations, etc.) are not to be included with this file submittal. E-mail CAD file transmissions are preferred to: bstanley@cityofmadison.com (East) or ttroester@cityofmadison.com (West). Include the site address in the subject line of this transmittal. Any changes or additions to the location of the building, sidewalks, parking/pavement, private on-site sanitary sewer utilities, or private on-site storm sewer utilities during construction will require a new CAD file.
14. The applicant shall submit, prior to plan sign-off but after all revisions have been completed, digital PDF files to the Engineering Division. Email PDF file transmissions are preferred to: bstanley@cityofmadison.com (East) or ttroester@cityofmadison.com (West). The digital copies shall be to scale, and shall have a scale bar on the plan set. The PDF submittals shall contain the following information: a) Building Footprints; b) Internal Walkway Areas; c) Internal Site Parking Areas; d) Other Miscellaneous Impervious Areas (i.e. gravel, crushed stone, bituminous/asphalt, concrete, etc.); e) Right-of-Way lines (public and private); f) Lot lines or parcel lines if unplatted; g) Lot numbers or the words unplatted; h) Lot/Plat dimensions; i) Street names; j) Stormwater Management Facilities; and k) Detail drawings associated with Stormwater Management Facilities (including if applicable planting plans).
15. The applicant shall submit prior to plan sign-off, electronic copies of any Stormwater Management Files including: a) SLAMM .DAT files; b) RECARGA files; c) TR-55/HYDROCAD/Etc., and; d) Sediment loading calculations. If calculations are done by hand or are not available electronically the hand copies or printed output shall be scanned to a PDF file and provided.
16. Submit a draft Stormwater Management Maintenance Agreement (SWMA) for review and approval that covers inspection and maintenance requirements for any BMP used to meet stormwater management requirements on this project. Include copies of all stormwater, utility, and detail plan sheets that contain stormwater practices on 8.5x14-inch paper in the draft document. These drawings do not need to be to scale as they are for informational purposes only. Once City Engineering staff have reviewed the draft document and approved it with any required revisions submit a signed and notarized original copy to City Engineering. Include a check for \$30.00 made out to Dane County Register of Deeds for the recording fee. City Engineering will forward the document and fee for recording at the time of issuance of the stormwater management permit. Draft document can be emailed to Tim Troester (west) at ttroester@cityofmadison.com, or Daniel Olivares (east) at DAOlivares@cityofmadison.com final document and fee should be submitted to City.
17. Provide additional detail how the enclosed depression(s) created by the parking entrance(s) to the below building parking area(s) is/are served for drainage purposes. The building must be protected

from receiving runoff up through the 24-hour, 100-year design storm. If the enclosed depression(s) is/are to be served by a gravity system provide calculations stamped by a Wisconsin PE that show inlet and pipe capacities meet this requirement. If the enclosed depression(s) is/are to be served by a pump system provide pump sizing calculations stamped by a Wisconsin PE or licensed Plumber that show this requirement has been met.

18. This site appears to disturb over one (1) acre of land and requires a permit from the Wisconsin Department of Natural Resources (WDNR) for stormwater management and erosion control. The City of Madison has been required by the WDNR to review projects for compliance with NR-216 and NR-151. However, a separate permit submittal is still required to the WDNR for this work. The City of Madison cannot issue our permit until concurrence is obtained from the WDNR via their NOI or WRAPP permit process. Contact Eric Rortvedt at 273-5612 of the WDNR to discuss this requirement.
19. A minimum of two (2) working days prior to requesting City Engineering signoff on the CSM, the applicant shall contact either Tim Troester at 261-1995 (ttroester@cityofmadison.com) or Brenda Stanley at 261-9127 (bstanley@cityofmadison.com) to obtain the final stormwater utility charges that are due and payable prior to subdivision of the properties. The stormwater utility charges (as all utility charges) are due for the previous months of service. All charges shall be cleared prior to the land division (and subsequent obsolesces of the existing parcel).
20. This development includes multiple building permits within a single lot. The City Engineer and/or the Director of the Building Inspection Division may require individual control plans and measures for each building.
21. This project will require a concrete management plan as part of the erosion control plan to be reviewed and approved by the City Engineer's Office.
22. The lots within this site plan are interdependent upon one another for stormwater runoff conveyance, and/or a private drainage system exists for the entire site an agreement shall be provided for the rights and responsibilities of all lot owners. Said agreement shall be reviewed and placed on file by the City Engineer, referenced on the site plan, and recorded at the Dane County Register of Deeds.
23. Prior to approval, this project shall comply with Chapter 37 of Madison General Ordinances regarding stormwater management. Specifically, this development is required to: detain the 2-, 10-, and 100-year storm events, matching post development rates to predevelopment rates; reduce TSS by 80% (control the 5 micron particle) off of newly developed areas compared to no controls; provide infiltration in accordance with MGO Chapter 37; and complete an erosion control plan and complete weekly self-inspection of the erosion control practices and post these inspections to the City of Madison website as required by MGO Chapter 37.
24. The applicant shall obtain a Street Excavation Permit for the installation of utilities required to serve this project. The applicant shall pay the permit fee, inspection fee and street degradation fee as applicable and shall comply with all the conditions of the permit.
25. The contractor shall coordinate with the City project to construct South Point Road and adjacent sidewalk, and the developer agreement to construct Watts Road and Feather Sound Drive and adjacent sidewalks.

26. The following note shall be placed on the CSM: "No changes in drainage patterns associated with development on any or all lots within this CSM shall be allowed without prior approval of the City Engineer."
27. The following note shall be added to the CSM: "Lots 1 and 2 created by this Certified Survey Map are individually responsible for compliance with Chapter 37 of Madison General Ordinances in regard to stormwater management at the time they develop."

Please contact Jeff Quamme of the City Engineering Division—Mapping Section at 266-4097 if you have any questions regarding the following ten (10) items:

28. The pending CSM shall be completed and recorded with the Dane County Register of Deeds (ROD) prior to issuance of any building permits for new construction. When the recorded CSM image is available from the ROD, the Assessor's Office can then create the new Address-Parcel-Owner (APO) data in the parcel database so that the permitting system can upload this data and permit issuance made available for this new land record.
29. Provide for review, comprehensive reciprocal easements and agreements including, but not limited to, access, parking, water main for fire protection, common areas, surface drainage, storm sewer and storm management that are necessary to accomplish the site development as proposed prior to final sign off. The document(s) shall be executed and recorded immediately subsequent to the proposed CSM recording and prior to building permit issuance.
30. The proposed public sanitary sewer along the west side of this site shall not run longitudinally within a public utility easement to avoid conflicts. The applicant shall work with the utilities and City Engineering to provide separate easement areas. New/revised easements (utility and sanitary) shall be provided on the pending Certified Survey Map. Trees shall not be permitted within the required sanitary sewer easement. Any trees within a public utility easement shall be approved by the utilities using the easement.
31. Move the private storm sewer and sanitary manholes outside of the 12-foot wide public utility easement along the east side of this site.
32. The address of Building A is 9510 Watts Road; the address of Building B is 9502 Watts Road. The middle entry with office and fitness center has a base address of 9506 Watts Road. The address of Building C is 604 Feather Sound Drive. The site plan shall reflect a proper street address of the property as reflected by official City of Madison Assessor's and Engineering Division records.
33. Submit a floorplan for each separate building in PDF format to Lori Zenchenko (lzenchenko@cityofmadison.com) that includes a floorplan for each floor on a separate sheet for the development of a complete building and interior addressing plan. The Addressing Plan for the entire project shall be finalized and approved by Engineering (with consultation and consent from the Fire Marshal if needed) prior to the submittal of the final Site Plan Approval application with Zoning. The approved Addressing Plan shall be included in the final application. For any changes pertaining to the location, deletion or addition of a unit, or to the location of a unit entrance, (before, during, or after construction), a revised Addressing Plan shall be resubmitted to Lori Zenchenko to review addresses that may need to be changed and/or reapproved. The final revised Addressing Plan shall be submitted by the applicant to Zoning to be attached to the final filed approved site plans.

34. The most recent tie sheet for the South Quarter Corner of Section 28 notes a rebar and not an aluminum monument. Surveyor shall confirm the type of monument and modify the note as required.
35. Wisconsin Administrative Code A-E 7.08 identifies when Public Land System (PLS) tie sheets must be filed with the Dane County Surveyor's office. The developer's surveyor and/or applicant must submit copies of required tie sheets or monument condition reports for all monuments, including center of sections of record, used in this survey, to Jeff Quamme, City Engineering (jrquamme@cityofmadison.com). If a new tie sheet is not required under A-E 7.08, Engineering requests a copy of the latest tie sheet on record with Dane County Surveyor's office and shall be attached to a signed and sealed monument condition report.
36. The applicant shall submit to Jeff Quamme, prior to final Engineering sign-off of the subject plat, one (1) digital CADD drawing and one (1) signed copy of the final plat to the Mapping/GIS Section of the Engineering Division either as hard copy or Adobe PDF format. The digital CADD file shall be submitted in the WisDOT County Coordinate System, Dane County Zone datum in either Auto CAD Version compatible with MicroStation Version V8i, MicroStation Version V8i or older or Universal DXF Formats. The digital CADD file(s) shall contain the minimum of the items stated below, each on a separate layer name/level number. All line work shall be void of gaps and overlaps that would cause any parcel, street or easement to not properly close. All line work orientation and geometrics shall match the dimensioning as labeled on the final recorded plat: right of way lines (public and private); lot lines; lot numbers; lot/plat dimensions; street names, and; easement lines (i.e. street, sanitary, storm (including wetland & floodplain boundaries) water, pedestrian/bike/walkway, or any public and/or private interest easement except local service for Cable TV, gas, electric and fiber optics).

*This transmittal is a separate requirement than the required submittals to Engineering Streets Section for design purposes. The Developer/Surveyor shall submit new updated final plat, electronic data and a written notification to Engineering Mapping for any changes to the plat which occur subsequent to any original submittal of data and prior to final sign off.

37. Prior to Engineering final sign-off by main office for plats, the final Plat must be submitted to Engineering Division Surveyor/Land Records Coordinator for final technical review and approval. This submittal must occur a minimum of two working days prior to final Engineering Division sign-off. Electronic mail submittal of the **final** CSM in PDF form is preferred. Transmit to jrquamme@cityofmadison.com.

Please contact Sean Malloy of the Traffic Engineering Division at 266-5987 if you have any questions regarding the following sixteen (16) items:

38. Due to design parameters of the South Point Road public works project, left-in access on South Point Road cannot be accommodated at this time. Left-in access may be permitted with future development of the property to the north.
39. The applicant shall submit one contiguous plan showing proposed conditions and one contiguous plan showing existing conditions for approval. The plan drawings shall be scaled to 1" = 20' and include the following, when applicable: existing and proposed property lines; parcel addresses; all easements; vision triangles; pavement markings; signing; building placement; items in the terrace such as signs, street light poles, hydrants; surface types such as asphalt, concrete, grass, sidewalk; driveway

approaches, including those adjacent to and across street from the project lot location; parking stall dimensions, including two (2) feet of vehicle overhang; drive aisle dimensions; semitrailer movement and vehicle routes; dimensions of radii; and percent of slope.

40. The City Traffic Engineer may require public signing and marking related to the development; the developer shall be financially responsible for such signing and marking.
41. The developer shall post a security deposit prior to the start of development. In the event that modifications need to be made to any City-owned and/or maintained traffic signals, street lighting, signing, pavement marking and conduit/handholes, the developer shall reimburse the City for all associated costs including engineering, labor and materials for both temporary and permanent installations.
42. All parking facility design shall conform to the standards in MGO Section 10.08(6).
43. All bicycle parking adjacent pedestrian walkways shall have a two-foot buffer zone to accommodate irregularly parked bicycles and/or bicycle trailers.
44. All pedestrian walkways adjacent parking stalls shall be seven (7) feet wide to accommodate vehicle overhang, signage and impediments to walkway movements. Any request for variance shall be submitted to and reviewed by City Traffic Engineering.
45. Per Section MGO Section 12.138 (14), this project is not eligible for residential parking permits. It is recommended that this prohibition be noted in the leases for the residential units.
46. The applicant shall adhere to all vision triangle requirements as set in MGO Section 27.05 (No visual obstructions between the heights of 30 inches and 10 feet at a distance of 25 feet behind the property line at streets and 10 feet at driveways.). Alteration necessary to achieve compliance may include but are not limited to; substitution to transparent materials, removing sections of the structure and modifying or removing landscaping elements. If applicant believes public safety can be maintained they shall apply for a reduction of MGO 27.05(2)(bb) - Vision Clearance Triangles at Intersections Corners. Approval or denial of the reduction shall be the determination of the City Traffic Engineer.
47. The applicant shall provide a clearly defined five- (5) foot walkway clear of all obstructions to assist citizens with disabilities, especially those who use a wheel chair or are visually impaired. Obstructions include but are not limited to tree grates, planters, benches, parked vehicle overhang, signage and doors that swing outward into walkway.
48. "Stop" signs shall be installed at a height of seven (7) feet from the bottom of the sign at all Class III driveway approaches, including existing driveways, behind the property line and noted on the plan. All directional/regulatory signage and pavement markings on the site shall be shown and noted on the plan.
49. The applicant shall show the dimensions for the proposed Class III driveway including the width of the drive entrance, width of the flares, and width of the curb cut.
50. All parking stalls must be clear of any and all obstructions (including columns) to be considered a legal parking stall. For large car this means 9' X 18' clear, for one-size-fits-all this means 8.75' by 17' clear.

51. The developer shall provide a recorded copy of any joint driveway ingress/egress and crossing easements, which shall be noted on face of plan.
52. Items in the right of way are not approvable through the site plan approval process. Make a note on all pages showing improvements in the right of way that states: The right of way is the sole jurisdiction of the City of Madison and is subject to change at any time per the recommendation/plan of the Traffic Engineering and City Engineering Depts.”
53. All parking ramps as the approach the public right of way shall not have a slope to exceed 5% for 20 feet; this is to ensure drivers have adequate vision of the right of way. If applicant believes public safety can be maintained, they shall apply for a waiver. Approval or denial of the waiver shall be the determination of the City Traffic Engineer.

Please contact Jenny Kirchgatter, Assistant Zoning Administrator, at 266-4429 if you have any questions regarding the following ten (10) items:

54. Additional approvals will be required to convert the areas identified as flex space within the CC-T zoned building into commercial tenant spaces.
55. Section 28.185(7)(a)5 requires that if a demolition or removal permit is approved, it shall not be issued until the reuse and recycling plan is approved by the Recycling Coordinator, Bryan Johnson (608-266-4682). Section 28.185(10) requires that every person who is required to submit a reuse and recycling plan pursuant to Section 28.185(7)(a)5 shall submit documents showing compliance with the plan within sixty (60) days of completion of demolition. A demolition or removal permit is valid for one (1) year from the date of the Plan Commission.
56. Provide a calculation and plan detail for lot coverage for both the TR-P and CC-T zoned parcels with the final submittal. The lot coverage maximum for the TR-P zoned parcel is 75%, and the maximum for the CC-T zoned parcel is 85%. Lot coverage is defined as the total area of all buildings, measured at grade, all accessory structures including pools, patios, etc., and all paved areas as a percentage of the total area of the lot, with the following exceptions: sidewalks or paved paths no wider than five (5) feet, pervious pavement, green roofs and decks.
57. Provide a calculation for the amount of qualifying useable open space provided for both the TR-P and CC-T zoned parcels. Identify each qualifying at-grade usable open space area on the final plans. Roof decks, porches, and balconies may be used to meet up to 75% of the minimum open space requirement within the CC-T zoning district, provided that minimum dimensional requirements are satisfied.
58. Provide a parking summary including the numbers of bicycle, automobile and accessible parking stalls broken down per building.
59. Screening is required adjacent the Zoning district boundary along the north property line abutting the property at 3614 South Point Road. Screening shall be provided along the side and rear property boundaries between commercial/ mixed-use districts and residential districts. Screening shall consist of a solid wall, solid fence, or hedge with year-round foliage, between six (6) and eight (8) feet in height. Submit a detail of the screening fence with the final plans.

60. Work with Zoning, Planning, and Urban Design Commission staff to create an appropriate buffer adjacent the west property line between the residential building complex and the property located to the north and west at 3614 South Point Road. An appropriate transition area between the use and adjacent property may be required, using landscaping, screening, and other site improvements consistent with the character of the neighborhood.
61. Provide details showing that the proposed building on the CC-T zoned parcel meets the door and window opening requirements of Section 28.060(2)(d). For residential uses at ground level, a minimum of 15% of the ground level of residential facades or side and rear facades not fronting a public street shall consist of windows and door openings. On upper stories, window or balcony openings shall occupy a minimum of 15% of the upper-story wall area.
62. Per Section 28.186(4)(b), the property owner or operator is required to bring the property into compliance with all elements of the approved site plans by the date established by the Zoning Administrator as part of the site and building plan approval. Work with Zoning staff to establish a final site compliance date.
63. Signage approvals are not granted by the Plan Commission. Signage must be reviewed for compliance with Chapter 31 Sign Codes of the Madison General Ordinances. Signage permits are issued by the Zoning Section of the Department of Planning and Community and Economic Development.

Please contact Adam Wiederhoeft of the Madison Water Utility at 266-9121 if you have any questions regarding the following two (2) items:

64. Prior to commencing with demolition of any structures on this property, the existing private well must be properly abandoned according to the requirements of the Wisconsin Administrative Code, Chapter NR 812, which includes proper filling and sealing of the well. All wells located in the City of Madison or on premises served by the Madison Water Utility shall be abandoned by the owner of the property if there is no valid well operation permit issued by the Madison Water Utility (MGO 13.21 (4)). The purpose of the ordinance is to prevent unused and improperly abandoned wells from contaminating Madison's drinking water aquifer.

As specified in the ordinance, your responsibilities include: contact a licensed well driller or pump installer and schedule the well abandonment; contact the Water Utility (266-4654) at least 48 hours prior to the abandonment to provide the scheduled date and time of the abandonment; pay for the cost of the abandonment; and ensure that a completed copy of the Wisconsin DNR Abandonment Form is provided to the Madison Water Utility within ten (10) days of the completion of the well abandonment. This form will be completed by the well driller or pump installer who performs the abandonment.

The responsibilities of the Water Utility include witnessing the abandonment to ensure that the private well is properly filled and sealed.

Contact the Madison Water Utility once you confirm date of the abandonment and the licensed well driller or pump installer performing the work. If you have any questions, contact the Madison Water Utility Water Quality Department at 266-4654.

65. A Water Service Application Form and fees must be submitted (for each lateral) before connecting to the existing water system. Provide at least two working days' notice between the application submittal and the requested installation or inspection appointment. Application materials are available on the Water Utility's Plumbers & Contractors website: www.cityofmadison.com/water/plumberscontractors, otherwise they may be obtained from the Water Utility Main Office at 119 E. Olin Avenue. A licensed plumber signature is required on all water service applications. For new or replacement services, the property owner or authorized agent is also required to sign the application. A Water Meter Application Form will subsequently be required to size and obtain a water meter establish a Water Utility customer account and/or establish a Water Utility fire service account. If you have questions regarding water service applications, please contact Madison Water Utility at 266-4646. The Madison Water Utility will be required to sign off as part of the approval review associated with this Land Use Application/Site Plan Review prior to the issuance of building permits for the proposed development.

Please contact Bill Sullivan of the Madison Fire Department at 261-9658 if you have any questions regarding the following item:

66. The fire access shall comply with Madison General Ordinances Chapter 34. The design shall not assume that the City of Madison will give up its rights for parking in the public right of way to accommodate the required safety needs of the proposed project. Building A and B appears to be subpar in regards to the required aerial access. Provide more detail that demonstrates compliance and/or provide additional built in safety measures into the buildings that are above the building code minimum standards.

Please contact Sarah Lerner of the Parks Division at 261-4281 if you have any questions regarding the following item:

67. Park Impact Fees (comprised of the Park Infrastructure Impact Fee, per MGO Sec. 20.08(2)), and Park-Land Impact Fees, per MGO Sec. 16.23(8)(f) and 20.08(2) will be required for all new residential development associated with this project. This development is within the West Park-Infrastructure Impact Fee district. Please reference ID#17140.1 when contacting Parks Division staff about this project.

Please contact Brad Hoffman of the Parks Division–Forestry Section at 267-4908 if you have any questions regarding the following item:

68. City Forestry will evaluate the terrace for new street tree plantings upon completion of the project. If there is space for new trees, City Forestry will schedule planting and assess the cost of the initial planting to the property owner.

Please contact my office at 261-9632 if you have any questions regarding the following two (2) items:

69. The final floorplans of the Building A/B shall include a concept plan showing the interior configuration of the future commercial spaces. Final approval to construct the commercial spaces on the first floor after the initial issuance of building permits for residential units may require additional approvals as identified by the Zoning Administrator.

70. The final construction documents submitted for building permits shall demonstrate that the first floor units designated for “future commercial use” will be built initially to a standard commensurate with future conversion to commercial occupancy, including but not limited to vertical and horizontal fire separation, fire protection, floor loading, and accessibility.

Please contact Janine Glaeser of the Urban Design Commission at 267-8740 if you have any questions regarding the following two (2) items:

71. The wood undersides of the balconies shall be painted or stained to match the surrounding building.

72. The landscaping plan shall be revised to provide more substantial seed mixes between entry stoops on the south and north façades.

Please contact Heidi Radlinger of the Office of Real Estate Services at 266-6558 if you have any questions regarding the following six (6) items:

73. If any portion of the lands within the CSM boundary are subject to an Option to Purchase or other Option interest, please include a Certificate of Consent for the option holder.

74. A Consent of Lessee certificate shall be included on the CSM for all tenant interests in excess of one year, recorded or unrecorded, and executed prior to CSM sign-off.

75. There are special assessments reported on the 9510 Watts Road parcel. All specials are due and payable prior to CSM sign-off pursuant to MGO Section 16.23(5)(g)1.

76. Pursuant to MGO Section 16.23(5)(g)(4), the owner shall furnish to Heidi Radlinger in City’s Office of Real Estate Services (hradlinger@cityofmadison.com), as well as the surveyor preparing the plat, an updated title report covering the period between the date of the initial title report (June 13, 2019) and the date when sign-off approval is requested. A title commitment may be provided, but will only be considered as supplementary information to the title report update. The surveyor shall update the plat with the most recent information available in the title report update.

77. The owner shall email the document number of the recorded CSM to Heidi Radlinger as soon as the recording information is available.

78. The following revisions shall be made to the final plat prior to final approval and recording: Depict and dimension all existing improvements including, but not limited to: buildings, drives, parking lots, encroachments, wells, septic systems, etc. located within the CSM boundary.

Specific questions regarding the comments or conditions contained in this letter should be directed to the commenting agency.

Any appeal regarding the CSM, including the conditions of approval related thereto, must be filed with the Circuit Court within thirty (30) days from the date of this letter. If I may be of any further assistance, please do not hesitate to contact me at 261-9632.

After the conditional use plans have been revised per the above conditions, please file **eight (8) sets** of complete, fully dimensioned, and to-scale plans, the appropriate site plan review application and fee

pursuant to Section 28.206 of the Zoning Code, and any other documentation requested herein with the Zoning Administrator, Room 017, Madison Municipal Building, 215 Martin Luther King, Jr. Boulevard. **This submittal shall all also include one (1) complete digital plan set in PDF format.** The sets of final revised plans or documents will be circulated by Zoning staff to the City department staff listed above for their final approval.

No alteration of the conditional use shall be permitted unless approved by the Plan Commission, provided, however, the Zoning Administrator may issue permits for minor alterations. No alteration of a conditional use shall be permitted unless approved by the Plan Commission provided, however, the Zoning Administrator following consideration by the alderperson of the district, may approve minor alterations or additions which are approved by the Director of Planning and Community and Economic Development and are compatible with the concept approved by the Plan Commission and the conditional use standards. This approval shall become null and void two (2) years after the date of the Plan Commission unless the use is commenced, construction is under way, or a valid building permit is issued and construction commenced within six (6) months of the issuance of said building permit. Where the plans have not been altered from the Plan Commission's approval, and the conditional use has expired, the Director of Planning and Community and Economic Development may, after consultation with the Alderperson of the District, approve an extension for up to twelve (12) months from the expiration date. The Plan Commission shall retain jurisdiction over the conditional use for the purpose of resolving complaints against the approved conditional use permit.

If you have any questions regarding obtaining your building permits, please contact the Zoning Administrator at 266-4551. If you have any questions or if may be of any further assistance, please do not hesitate to contact my office at 261-9632.

Sincerely,

Timothy M. Parks
Planner
