To Whom It May Concern,

We have spoken with our next-door neighbors (Ann Kinkade and Tom Zalewski at 5630 Lake Mendota Drive) about their proposed deck replacement and understand its dimensions and placement. We do not have any issues with this deck or the impact of its placement on our sight lines to the lake. The proposed site is off to the side of our house and does not obstruct the view in that direction. The design looks pleasing and in line with the neighborhood and the environment. We are supportive of their proposal.

Thank you,

Signed,
