Chris,

We are ok being referred. It's obviously not what we want. I understand that my team has tried everything they can do to get this resolved with DOT. We will keep working on it.

Bob,

I wanted to quickly follow up in writing as I have not heard back since we chatted earlier this morning. The Planning Division is recommending referral to the Plan Commission given the email earlier this week from Ms. Braun of the Wisconsin DOT. While we understand that you have been trying to resolve discrepancies between your records and those of the DOT, these need to be resolved and regardless, City Agencies need to fully review your updated plans (Engineering has been waiting for the DOT issue to be resolved before they devote the staff time to the full review of the sidewalk). We do not feel it is ready for review given the direction by the Plan Commission coming out of the last meeting – to add the sidewalk and seek review by the DOT. In light of all of this, we ask that you please send us an email formally agreeing to a referral. This would put you at the October 15th Plan Commission meeting.

Please let me know if you have any questions. Thank you.

Chris Wells
