Construction Schedule & Impacts

Tentative Schedule: Middle of May 2015 through middle of July 2015

Traffic Impacts: All streets will be closed to through traffic within the project limits. Access will be maintained to driveways unless work is directly in front of driveway.

Parking on the street will be allowed from 7:00pm to 7:00am during the weekday.

Water Shut-offs: An average of two water shut-offs are expected for each property within the project limits, and the timing of these shut-offs will be coordinated as much as possible. A minimum of 48 hours of notice will be provided prior to the shut-offs. Each shut-off may last up to 8 hours, but typically last about 4 hours.

At the start of construction, the existing main will remain in service until the new main is installed and connected to; emergency shut-offs may occur if the old, brittle main is damaged during construction.

Refuse Collection: It will be the contractor's responsibility to allow for refuse collection during construction. Please mark your address on your cart to make sure it is returned if moved. Please contact private collection companies to inform them of the project.
