Rustic Acres

GDP/SIP Submittal

The Rustic Acres project is comprised of a unique mix of single family, duplex and 4-unit multi-family buildings. The project is located near Grandview Commons, one of the city's new traditional neighborhood developments. The designs of the buildings for this project acknowledges the traditional neighborhood planning ideas and incorporates both new and existing construction. The new four-plex buildings, set near the street, feature a broad mass with a strong roof line and strong entrances encircled by low urban planting at the sidewalk, evoking the look of larger single family homes. The four-plex building's massing, choice of exterior materials and treatment are intended to establish an appropriate character and scale that will make a positive contribution to this new community-oriented, pedestrian-friendly community. Similarly, the new duplex units have been revised to lessen the dominant garage doors common to this building type. By varying the massing of these building there is more variation within the building type, thereby relieving the repetition common to a street of duplex units. The architectural treatment of the duplex units differs from the four-plex units and is intended to contribute the feeling that this neighborhood developed over a period of time instead of being constructed all at once- an idea also found in the neighboring community of Grandview.

Background:

NELSON'S ADDITION TO RUSTIC ACRES is a 9.78 acre development on the south side of Milwaukee Street and along the east and west sides of Rustic Drive on the City's east side. METROTECH, a mixed use development, is immediately to the north and the expansive residential development known as RESTON HEIGHTS is 500 feet to the east. NELSON'S ADDITION TO RUSTIC ACRES has been designed to create a use in harmony with the existing neighborhood uses. A mix of affordable residential uses is planned within the development including single family, duplex homes, and multi-family units (4 families).

Site Development Statistics:

The proposed development consists of a total of 33 lots. Outlot 1 shall be used for stormwater management purposes. Lots 4 – 21 shall be zoned R2S, Lots 1 – 3, and 22 – 32 shall be zoned PUD-GDP-SIP. The lot numbers (per the Preliminary and Final Plats), their uses and sizes are listed below.

Design Guidelines:

NELSON'S ADDITION TO RUSTIC ACRES has a set of site design and landscape standards that are provided in the General Development Plan. It is intended that city staff, the Urban Design Commission and the Plan Commission, review these design guidelines as they apply to the PUD. After City approval the GDP and SIP documents will be recorded for public record.

Project Schedule:

It is the developer's intent to obtain the necessary approvals for the preliminary and final plats, the General Development Plan for lots 1 – 3 and 22 - 32 and the Specific Implementation Plan for lots 1 – 3 and 22 - 32 on or before April 4, 2005. The subdivision contract covering the public infrastructure will then be finalized and construction of the plat improvements will begin in the Spring of 2005 with completion scheduled for the Summer of 2005. After completion of plat improvements, individual lots will be available for building permit. It is anticipated that the lots in this development will be built-out by the Spring of 2006. Landscaping will be completed with the construction of each lot.

Service Management and Maintenance:

Each lot within the PUD-GDP-SIP district will be privately owned and managed. Building and site maintenance will be the responsibility of the property owner. The City will provide typical public services such as snow and trash removal and public street maintenance. The maintenance of any private service driveways and walkways will be the responsibility of the individual lot owner.

Social and Economic Impact:

The NELSON'S ADDITION TO RUSTIC ACRES has been designed to meet the needs of the City. More specifically it implements the City's new Inclusionary Zoning. The development provides a diversity of housing for all income levels.

Letter of Intent - Amended
NELSON'S ADDITION TO RUSTIC ACRES
4609 & 4610 Rustic Drive

The development will have a positive economic impact. Significant tax increases will be generated from developing the property while the design minimizes public services.

Thank you for your time in reviewing our proposal.

Sincerely,

PART 5 - INCENTIVES: Section 28.04 (25) of the Zoning Ordinance provides the opportunity for applicants in projects where affordable dwelling units are required or where the developer has agreed to pay money in lieu of inclusionary dwelling units, to receive one or more incentives as compensation for complying with the Inclusionary Zoning requirements. Each of the eleven incentives listed below are affixed a point value. The incentive points available to an applicant is dependent upon the number of affordable dwelling units proposed at the various area median income (AMI) levels. The program rewards projects both for having a higher number of affordable dwelling units provided at lower AMI levels, and for having a higher percentage of affordable dwelling units incorporated into the development. The incentive and the corresponding number of points available are listed below. (MAP=Maximum Available Points) Please mark the box next to the incentives requested.

PART 6 - WAIVER: The Plan Commission may waive the requirement to provide inclusionary dwelling units in the development if the applicant can present clear and convincing financial evidence that providing the required number of inclusionary dwelling units on-site renders providing the required number of inclusionary units financially infeasible. In such a case, a developer may request a waiver to provide the units off-site, assign the obligation to provide the units to another party, or pay cash in lieu of the units, or any combination of the above. If the waiver is granted, the required units may be provided as new construction off-site in another development within one mile of the subject development; off-site units shall be provided at least 1.25 times the number of units if provided within the subject development. Off-site units must be constructed within one year of the time that they would have been constructed within the subject development. The applicant may opt to pay money into the Inclusionary Unit Reserve Fund based on contribution rates established in Section 28.04 (25) of the Zoning Ordinance. If provision of the inclusionary dwelling units through the waiver is still financially infeasible, the developer may seek a reduction in the percent of units to the point where the project becomes financially feasible. If such a waiver is requested, a detailed explanation shall be provided in the required project narrative demonstrating the financial infeasibility of complying with the ordinance requirements and the rationale for the alternative proposed.

- If a waiver is requested, please mark this box and include all of the necessary information required by the Zoning Ordinance and IZ Program Policy & Protocols to support your request.

PART 7 - APPLICANT'S DECLARATION:

The signer shall attest that this application has been completed accurately and includes all requests for incentives or waivers; that they have attended both required pre-application staff meetings and given the required notice to the district alderperson and neighborhood association(s) prior to filing this application; and that all required information will be submitted on the corresponding application for zoning and/or subdivision approval by the Plan Commission. The applicant shall begin the declaration by stating below whether or not the project complies with the various requirements of the inclusionary zoning ordinance. Check the applicable box and provide any supporting comments.
