

Water Utility Board Policy			
Title:	Affordability		
Policy Number:	O-2D	Adopted:	May 24, 2011
Category:	Outcomes	Revision #/Date:	2/July 22, 2014

Madison Water Utility customers will pay an affordable rate for water, including the financing of necessary replacement of water distribution plant and improvements to water treatment.

With a goal of maintaining affordable water rates and funding necessary improvements to the water supply system, Madison Water Utility shall:

1. Maintain its water rates between the 25th and 75th percentile for Class AB utilities (those serving 4,000 customers or more) in Wisconsin.
2. Apply for a necessary rate increase (subject to the adopted City of Madison Budget) that does not exceed an annualized rate of 9% per year. "Annualized rate increase" is defined as the increase beginning from the time when the last rate increase was fully effective to the estimated date the applied-for rate increase is anticipated to become fully effective, apportioned annually.
3. Generate its authorized return on rate base consumption (defined as per F-23 of the Utility's Annual Report to the PSCW). This sets a reasonable return on investment as determined by an outside party, the PSCW. The allowable return on investment is comparable to that of other publically and privately owned utilities in Wisconsin. By maximizing this return, the utility will have revenue necessary and reasonable for reinvestment in system improvements, and operations and maintenance expenses.
4. Petition for water rates that will complement economic growth in Madison.
