I just registered for this meeting and clicked the "Neither for or against" button for this agenda item.

The reason I did this is because I don't feel the city planners gave enough credence to the concerns of the neighborhood about the need for sidewalks on both sides of Pontiac. At the recent Summit Woods Neighborhood Association Annual meeting, there were a majority of residents NOT in favor of sidewalks on both sides. This was discussed during the first Zoom meeting about this project, but during the second meeting, two options were presented, but both had sidewalks on both sides. I feel that the City neglected to take our objections under advisement.
