

MEMORANDUM

Date: January 29, 2025

To: Water Utility Board

From: Joseph Grande, Water Resources Manager
Krishna Kumar, General Manager

Subject: Water Production Report

BACKGROUND

Board governance policy requires that current and future customers will receive water that meets or exceeds industry-accepted levels of service for fire protection and pressure.

This includes:

1. Water delivered to hydrants at proper flow rates for fire protection.
2. Water delivered to the customer tap at a pressure that meets industry-accepted low, high, and emergency operation criteria.
3. Water used for outdoor irrigation under drought-free conditions.

The Water Resources Section of the Utility strives to meet or exceed the expectations laid out above. Year-end 2024 Monthly Water Production and Unit Well Cumulative Capacity Utilization Reports reflecting these efforts are attached.

ATTACHMENTS

- A. Monthly Water Production as of December 31, 2024
- B. Unit Well Cumulative Capacity Utilization as of December 31, 2024
