Dear Ms. Scanlon and Members of the Historical Committee,

I am a tenant of 10 [REDACTED] N Spooner, and I am writing you to express my support for adding siding to our building.

This proposed plan is environmentally friendly. Adding insulation and siding to this building will reduce the energy needed to heat the building in the winter. This will be a great cost savings. In addition, adding siding would be safer than removing the old paint currently on the building. Stripping the paint would put the residents at risk to lead exposure from the old paint.

Furthermore, I believe that adding siding to this residence will not compromise the historical beauty of the neighborhood. Other buildings have been covered in siding, and their overall appearance seems unchanged.

Thank you for your consideration.

Sincerely,
Kathryn Ritter
