Subject: agenda request

Ms. LaFave,

I request that I be put on the agenda for the next Parks Commission meeting to present the following two related requests:

1. to install a timeline in Rennebohm Park in April and May, and 2. to reinstall the first two signs of the Planet Trek Dane County solar system in Law Park from March through October.

I anticipate that the total presentation should take no more than 10 minutes.

Thank you,
Nick Schweitzer
