Subject: Rutledge Street - Jan. 17 Transportation Commission Agenda Items

Hello,

I plan to present (20 min) the reconstruction of Rutledge Street and resurfacing of Division Street to the commission members.

A project description: *"The City is planning to reconstruct Rutledge Street (Riverside Drive to Division Street) in 2024. The project will include replacement of asphalt pavement, gravel base, curb & gutter, and spot replacement for sidewalk and driveway aprons. Sanitary sewer, storm sewer, and water main will be replace. The City is also planning to resurface Division Street (Rutledge Street to Jenifer Street/Oakridge Avenue) in 2024. The project includes removing and replacing the asphalt pavement."*

Attached are the agenda exhibits.

I am seeking feedback from the commission regarding the street layout options for the reconstruction portion.

Thanks,

Nashaly Gutierrez
