**Subject:** 1910 Tenneyson Lane Tonight

Greetings!

Tonight's Plan Commission has an agenda item related to a TE Deposit for the Independent Living facility on Tenneyson Lane in my district. Unfortunately I will not be able to attend since I am hosting a neighborhood meeting for the project next door that will come, again, to you at your next meeting.

Anyway, I wanted to pass along some quick words about the request. There will be no clear answer from me on this...

- I support Independent Living for a review of this policy. I believe the destination, not where they live, should be paying for improvements.
- I support staff decisions based on their previous experiences.
- I support consistent policies that applicants are made aware of and that are applied equally.
- I support the Plan Commission and whatever outcome you decide based upon all the facts and options that you will receive tonight.

Hopefully a discussion tonight will create either a smarter or more consistent policy and outcome.

Larry
