Mayor Dave Cieslewicz
210 Martin Luther Jr. Blvd..
Room 403
City County Building
Madison, WI 53703-3342

Dear Mayor Cieslewicz,

I am writing this letter to express my great concern regarding the proposed Pellitteri Waste Systems facility on Kipp Street in Madison. Our home is located not far from the proposed location, in the Veridian subdivision of Lost Creek. This planned project is also close to the Veridian Subdivision of Secret Places, which is still under development.

I felt it necessary to voice my opposition to this proposed project because of the close proximity not only to our subdivision, but other residential areas as well. My husband and I, as well as other homeowners are concerned with multiple issues including, but not limited to, reduced property values, increased truck traffic, noise, and smells that would negatively affect our neighborhood.

Please help us protect our beautiful neighborhoods and not allow Pellitteri to build in an area so close to a residential area. Thank you.

Sincerely,

Wanda Kroll

RE: Pellitteri Waste Systems plan for Kipp St.

It has come to our attention that Pellitteri Waste Systems is planning a new material recovery and transfer system on Kipp Street in Madison.

As citizens and nearby residents of the Lost Creek Neighborhood in Madison, this is of great concern to us and our neighbors. The person representing our neighborhood is not supporting the majority of residents that do not want a Pellitteri Waste Systems facility in our area. The representative stated at the August 17th public hearing that she heard few if any complaints regarding this proposed project, and that homeowners are at fault for not fighting the Tradesman Commerce Park when it was developed some years ago. Unfortunately, for a majority of the families living in our neighborhood now, we were not living in the Lost Creek Neighborhood at that point in time, nor were we informed until recent months that it was a waste system facility that was being built.

This facility is not just close to our neighborhood, but others as well, including the Veridian Secret Places subdivision, and in fact is only 45 short feet from those families residing on Marsh Road.

As the Plan Commission of our great city, I ask that you consider other solutions. Put the waste facility in the country away from neighborhoods of concerned citizens and families who want to stay here for years to come. Stop the demise of a neighborhood tarnished by additional truck traffic, noise, odor, as well as pest, well, and property value concerns from this facility.

Thank you for your attention to this important issue, and I hope that you consider the concerns of the citizens in this area.

Sincerely,

A handwritten signature in black ink, appearing to read "Tony C. & Michelle L. Pullara". The signature is fluid and cursive, with the first name "Tony" and last name "Pullara" being more prominent.
