

DATE: June 13, 2018

TO: Transit and Parking Commission Members

FROM: Assistant Parking Utility Manager, Sabrina Tolley

SUBJECT: Citation Data for Residential Parking Restrictions

In response to Commission Member Ken Golden's May 24, 2018 email requesting information on citation data for Residential Parking Permit Program restrictions, the requested information is provided below.

Madison Police Department Parking Enforcement Supervisor, Stefanie Niesen provided the following information on the quantity of citations issued for the period of February 1, 2018 through June 3, 2018. A shift change occurred in February, which is why the data does not include information for the month of January.

**Citations Issued by Officer for 1 and 2 -Hour Time Restricted Violations
(Period of February 1, 2018 – June 3, 2018)**

Officer IBM	Quantity
3188 -	668
3281 -	592
2666 -	331
4408 -	397
3840 -	340
3614 -	449
4345 -	173
4818 -	292
3264 -	274
2558 -	1,121
713 -	1,308
Total Issued:	5,945

- Approximately 17,000 citations for 1 and 2-hour time restriction violations are issued annually.
- The citation quantities noted above include both RP3 and non-RP3 time restriction violations. MPD does not differentiate between RP3 and non-RP3 time restriction violations, and they are not tracked separately.
- Assuming citation issuance for RP3 and non-RP3 restricted areas are evenly distributed based on the ratio of RP3 vs non-RP3 time restricted spaces, 75% would be attributed to RP3 time restrictions and 25% would be non-RP3 time restrictions.
