Commissioners,

I wanted to bring up concerns in regard to Legistar File 91510.

In the past this applicant has filed to have amplified sound which was placed on file without prejudice.

Given the proximity to neighbors and the vast number of concerns from not only residents but former staff that I receive I think it is the right decision to deny this request. Our neighbors deserve to have their voices heard in this matter.

Thank you

Graciously,

Alder Dina Nina Martinez-Rutherford
