Why?

Were the developers and all the city committees that have already approved this project not aware that it was at the end of the runway used by the F35's?

Is it to ease your conscience that you are allowing affordable housing to be built at the end of the runway used by the F35's?

Is it because you feel guilty because the people that will be crowded into this development won't be able to relax outside? But, by gosh, they'll be fine as long as they stay inside and don't open any windows.

Will you now be offering TIF financing to the rest of the neighborhood?

Thankyou for your service,
