Hi,

I have registered to speak during agenda item 62436. I am here to ask some questions, the questions are in regard to the Mission House and I would like to provide a written copy of the questions that I currently have:

1. Why is this location being considered and what makes it advantageous? How long is the conditional use? Are there populations that the Mission House is meant to serve beyond the homeless community?
2. What other resources are available to the homeless population in this location?
3. Is the city also going to dedicate funding to: Subsidized mental health resources in our area; Peace officers for maintaining community guidelines and sanctions
4. Are there community guidelines and sanctions against panhandling, loitering at schools, and other potential issues?
5. How are homeless people getting to/accessing this space?
6. What provisions are in place for people who get banned? Where will they go and how will they get there?
7. There have already been reports of issues with homeless individuals starting fires in our areas school trash cans and utilizing their utilities without permission. What measures is the city going to take to prevent these types of issues moving forward?

Thank you and respectfully,

--
