

Zoning Variance Amendment for 1001 N. Wingra Dr.

I would like to amend the variance request.

Starting at the Northeast Corner exceed the Variance of 6' in height by 3' for 50' feet traveling a south southeast direction along the back property line. At approximately the 50' length we would like to transition down for a variance request to exceed the code for 1' 6" in height for the next 10'. At that time no variance is needed because the fence will comply with the code for the following 15'.

No side lot variance is needed between 921 N. Wingra Dr. and my property. We would like to withdraw that ask.

Attached:, GIS Map outlining heights, pictures, Fence drawing

3' VARIANCE  
≈ 50'

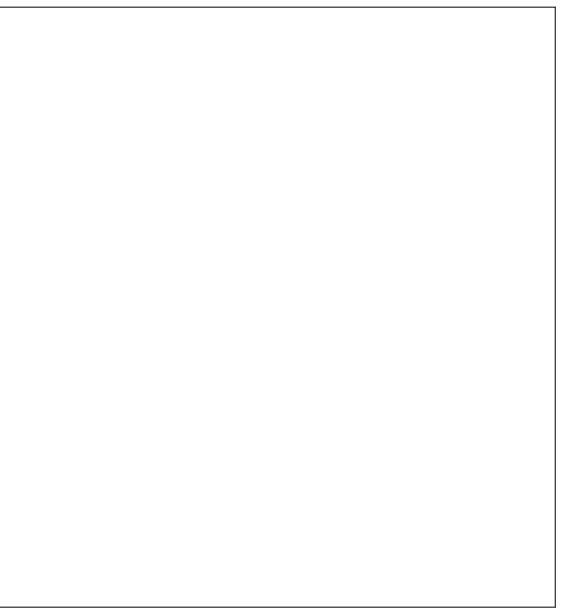

≈ 10'  
1.6" VARIANCE

≈ 15'  
NO VARIANCE
