Dear Alder Rummel and ALRC members:

Please deny the application for the Canopy nightclub. As many of you know, have been told, or have experienced, this location is incompatible with a night club. The size and nature of Plan B and Prism have put an undue strain on adjoining residential neighborhoods, especially in their heyday. The news that a new applicant is contemplating expanding capacity even further is disturbing.

We value the diverse and varied businesses and drinking establishments around us whose patrons respect the audio environment of our community. From what I have seen of this application, the proposed venture appears unlikely to be concerned about the burden of their audio pollution on the rest of us.

Thank You,  
Nick Schroeder
