Hello,

I want to protest the increase in rates for the State Street Capitol and State Street Campus ramps. Many people come down to State Street to visit and support the local businesses and you are making it increasing difficult for that to continue. This will hurt not only State Street businesses but others on the side streets as well.

I am a University employee and I occasionally need to drive to work. The cost for a work day is already \$11 a day, and now you want to raise this??? I am considered lower middle class and I cannot afford an extra \$2-3 to park. What is the reason for this high of an increase? .20 and .30 cents seems outrageous.

Please count my email as contesting the increase.

Barb
