To: Property Owners along Starker Avenue

Re: Proposed Sidewalk Installation & Public Hearing

The City of Madison is proposing to install sidewalk in front of 4801 Starker Avenue and 1502 Woodvale Drive in 2018 to connect existing sidewalk along Starker Avenue. Enclosed is a notification for the Public Hearing before the Board of Public Works. The date, time, and location of the public hearing can be found on the notification.

Also enclosed is a Schedule of Assessments, which shows the estimated costs for your property. After the work is complete, a final assessment will be calculated based on bid prices and work actually performed. The final assessment, which will be billed after the completion of the project, is payable in one lump sum or over a period of 8 years, with 3% interest charged on the unpaid balance.

Note that the standard assessment policy for this type of project indicates that the costs of new sidewalk are to be assessed entirely to the adjacent property owners. This project is eligible for a Safe Routes Grant. Individual property owners benefit from the grant by receiving a credit equal to 50% of the total sidewalk assessment. The enclosed estimated assessments for each property include the entire costs for the sidewalk installation, and the grant would be applied to the amount due for the sidewalk installation when the final assessments are prepared following the project. The application of the Safe Routes Grant to this project will require a separate approval by the Common Council.

To request accommodations for special needs or disabilities or if you have any other questions regarding this project, please contact the Project Engineer. This includes requests relating to the Public Hearing and also requests relating to the actual operations of construction. If you would like to meet privately before the public hearing or have any questions, please contact the Project Engineer Chris Dawson at (608) 261-5537 or cdawson@cityofmadison.com.

Sincerely,

Robert F. Phillips, P.E.
City Engineer
