

BPW Meeting June 16, 2010:

Review of Projects by Engineering Environmental Staff for Impacts to Water Resources

23. Lower Badger Mill Creek Sanitary Interceptor

This project will require a Water Quality Certification permit for disturbance of wetlands from the DNR and concurrence from the ACOE. This permit application has been submitted. The project will also require a WRAPP (formerly NOI) permit from the DNR for land disturbance over one acre. This permit will be submitted following approval of the permit to disturb wetlands.

(Mark Moder, City Engineering)
