Telephone 608-444-7891 **Email** APOLLO74MARQUEZ@GMAIL.COM

Urban Design Commission Application (continued)

5. Required Submittal Materials

- Application Form
- Letter of Intent
 - If the project is within an Urban Design District, a summary of how the development proposal addresses the district criteria is required
 - For signage applications, a summary of how the proposed signage is consistent with the applicable CDR or Signage Variance review criteria is required.
- Development plans (Refer to checklist provided below for plan details)
- Filing fee
- Electronic Submittal*

Each submittal must include fourteen (14) 11" x 17" collated paper copies. Landscape and Lighting plans (if required) must be full-sized. Please refrain from using plastic covers or spiral binding.

Both the paper copies and electronic copies must be submitted prior to the application deadline before an application will be scheduled for a UDC meeting. Late materials will not be accepted. A completed application form is required for each UDC appearance.

For projects also requiring Plan Commission approval, applicants must also have submitted an accepted application for Plan Commission consideration prior to obtaining any formal action (initial or final approval) from the UDC. All plans must be legible when reduced.

**Electronic copies of all items submitted in hard copy are required. Individual PDF files of each item submitted should be compiled on a CD or flash drive, or submitted via email to udcapplications@cityofmadison.com. The email must include the project address, project name, and applicant name. Electronic submittals via file hosting services (such as Dropbox.com) are not allowed. Applicants who are unable to provide the materials electronically should contact the Planning Division at (608) 266-4635 for assistance.*

6. Applicant Declarations

1. Prior to submitting this application, the applicant is required to discuss the proposed project with Urban Design Commission staff. This application was discussed with JEANNE GLIBSKA on MARCH 8TH.
2. The applicant attests that all required materials are included in this submittal and understands that if any required information is not provided by the application deadline, the application will not be placed on an Urban Design Commission agenda for consideration.

Applicant name DOUGLAS PAHL Relationship to property ARCHITECT
 Authorized signature of Property Owner Apollo Marquez Date 4/3/18

7. Application Filing Fees

Fees are required to be paid with the first application for either initial or final approval of a project, unless the project is part of the combined application process involving the Urban Design Commission in conjunction with Plan Commission and/or Common Council consideration. Make checks payable to City Treasurer. Credit cards may be used for application fees of less than \$1,000.

Please consult the schedule below for the appropriate fee for your request:

- Urban Design Districts: \$350 (per §35.24(6) MGO).
- Minor Alteration in the Downtown Core District (DC) or Urban Mixed-Use District (UMX) : \$150 (per §33.24(6)(b) MGO)
- Comprehensive Design Review: \$500 (per §31.041(3)(d)(1)(a) MGO)
- Minor Alteration to a Comprehensive Sign Plan: \$100 (per §31.041(3)(d)(1)(c) MGO)
- All other sign requests to the Urban Design Commission, including, but not limited to: appeals from the decisions of the Zoning Administrator, requests for signage variances (i.e. modifications of signage height, area, and setback), and additional sign code approvals: \$300 (per §31.041(3)(d)(2) MGO)

A filing fee is not required for the following project applications if part of the combined application process involving both Urban Design Commission and Plan Commission:

- Project in the Downtown Core District (DC), Urban Mixed-Use District (UMX), or Mixed-Use Center District (MXC)
- Project in the Suburban Employment Center District (SEC), Campus Institutional District (CI), or Employment Campus District (EC)
- Planned Development (PD): General Development Plan (GDP) and/or Specific Implementation Plan (SIP)
- Planned Multi-Use Site or Residential Building Complex

April 3, 2018

Dear Jeanine,

This letter is to accompany the application for UDC review of a façade grant application for 255 North Sherman Avenue, which is the brown brick and limestone building on the corner of Erie Court and North Sherman known as the Lakewood Building.

The client has an interest investing in the renewal of the exterior of the building where feasible to the effect of maintaining the original design intent of a mid-century modern office building while enhancing and enlivening its appearance with some modern touches.

One major aspect of this will be the addition of new punched openings along the Sherman avenue frontage, which has the combined benefit of improved aesthetics and interior daylight. Other major design improvements include a wood accent screen which incorporates the address numbers and highlights the new windows, and a wood mechanical screen to hide the roof top equipment which heretofore has been exposed.

Aspects of the completed design renderings include accommodations for a café which is the desired type of tenant for the upstairs space. The patio is designed to comply with the vision triangle requirements while creating a new and distinct entry for the corner tenant and a desirable outdoor seating area with views of the park across Sherman Avenue. A conditional use permit would need to be obtained before constructing the outdoor seating feature

SCOPE OF WORK

The owner plans several future improvements that rely on a secured tenant with the interest in those features prior to developing them, so it is important to distinguish the scope of work that is being submitted for the façade grant to be completed with this phase of the project. Interior work and the patio work shown in the submitted documents may not be completed as part of the façade improvement phase depending on the tenants retained in the forthcoming weeks.

The below scope of work is detailed in the architectural documents included with this submittal and is identified in the General Contractor's proposal included with this submittal.

The proposed scope of work to be matched by city of Madison Façade improvement grant funds is as follows:

Demolition:

- Cut masonry openings for new windows
- Remove CMU necessary to work on end wall windows
- Remove panels to make ready for new glazing

Concrete/masonry work

- Install rebar, steel and grout according to plan for window support
- Re-use brick to fill in sides of openings where brick voids are visible
- Install mortar where removed

Windows on west side

- Install 5 new windows in new openings
- Install flashing on exterior

New frames, windows and door at north end

- Install new frames, glazing and door to deck on north end
- Seal exterior at edges.

Repair and Repaint overhang, existing fascia, spandrel panels and support posts

- Repair and prep entrance overhangs, gutters, downspouts, soffits, existing fascia, spandrel panels and support posts
- Prime and paint entrance overhangs, gutters, downspouts, soffits, existing fascia, spandrel panels and support posts

Install screen for mechanicals and siding over brick using thermally modified ash

- Fabricate and install screen for rooftop mechanicals and siding over brick.
- Wood will be thermally modified ash.
- Use aluminum "z" channel to attach wood to building.
- Install galvanized metal post to roof for mechanical screen.
- Install EPDM flashing around metal posts to seal to roof.
