Madison, WI 53704

RE: Approval of a demolition permit, a conditional use for an addition exceeding 500 square-feet for a single-family residence on a lakefront property, and a conditional use for an accessory building exceeding 576 square-feet in a traditional residential zoning district at 2406 Waunona Way (ID 52204; LNDUSE-2018-00065).

Dear Mr. Taff;

At its July 30, 2018 meeting, the Plan Commission found the standards met and **approved** your demolition permit and conditional uses for 2406 Waunona Way. The conditions of approval in the following sections shall be satisfied prior to issuance of demolition or building permits for the project.

Please contact Tim Troester of the Engineering Division at (608) 267-1995 if you have any questions regarding the following four (4) items:

1. Applicant shall revise plan to show the City sanitary sewer location on the plan as well as the sewer easement (DOC.0861679). The sewer does not appear to be correctly shown on the plans. The City will assist in locating the existing sanitary sewer. Please contact Mark Moder at 261-9250, mmoder@cityofmadison.com 24 hours in advance of when you would like to have sewer marked for your surveyor and Mark will have an operations crew mark the location of the sanitary sewer. If the sanitary is not located in the existing recorded easement, applicant shall dedicate a 15' wide easement with the sewer centered in the easement.
2. Prior to approval, the owner or owner's representative shall obtain a permit to plug each existing sanitary sewer lateral that serves a building which is proposed for demolition. For each lateral to be plugged the owner shall complete a sewer lateral plugging application and pay the applicable permit fees. The permit application is available on line at <http://www.cityofmadison.com/engineering/permits.cfm>. (MGO CH 35.02(14))
3. The site plans shall be revised to show the location of all rain gutter down spout discharges. (POLICY)
4. The plan set shall be revised to show more information on proposed drainage for the site. This shall be accomplished by using spot elevations and drainage arrows or through the use of proposed contours. It is necessary to show the location of drainage leaving the site to the public right-of-way. It may be necessary to

provide information off the site to fully meet this requirement. (POLICY)

Please contact Jeff Quamme of the Engineering Division Mapping Section at (608) 266-4097 if you have any questions regarding the following item:

- | |
|---|
| 5. If an amended easement location is necessary per the Engineering comment above, contact Jeff Quamme (jrquamme@cityofmadison.com) to coordinate the required easement document. |
|---|

Please contact Jenny Kirchgatter, Assistant Zoning Administrator at (608) 266-4429 if you have any questions regarding the following seven (7) items:

- | |
|---|
| 6. Revise the plans to show that the basement level is not exposed more than 50% as measured from the surface of the floor to the surface of the floor next above it. The proposed single-family detached dwelling is limited in height to two (2) stories. The basement level will count as a story if the front exterior wall of the basement level is exposed more than 50%. |
|---|

7. Section 28.185(7)(a)5. requires that if a demolition or removal permit is approved, it shall not be issued until the reuse and recycling plan is approved by the Recycling Coordinator, Bryan Johnson (608-266-4682).
8. Section 28.185(10) Every person who is required to submit a reuse and recycling plan pursuant to Section 28.185(7)(a)5. shall submit documents showing compliance with the plan within sixty (60) days of completion of demolition.
9. Section 28.185(9)(a) A demolition or removal permit is valid for one (1) year from the date of the Plan Commission.
10. Provide a complete inventory of shoreline vegetation in any area proposed for building, filling, grading or excavating. In addition, the development plan shall indicate those trees and shrubbery which will be removed as a result of the proposed development. The cutting of trees and shrubbery shall be limited in the strip thirty-five (35) feet inland from the normal waterline. On any zoning lot not more than thirty percent (30%) of the frontage shall be cleared of trees and shrubbery.
11. Filling, grading and excavation of the zoning lot may be permitted only where protection against erosion, sedimentation and impairment of fish and aquatic life has been assured. Obtain necessary erosion control permits.
12. Per Section 28.186(4)(b), the property owner or operator is required to bring the property into compliance with all elements of the approved site plans by the date established by the Zoning Administrator as part of the site and building plan approval. Work with Zoning staff to establish a final site compliance date.

Please contact William Sullivan of the Fire Department at (608) 261-9658 if you have any questions regarding the following item:

13. Madison Fire Department recommends the installation of a residential fire sprinkler system in accordance with NFPA 13D. Additional information is available at the Home Fire Sprinkler Coalition website: <https://homefiresprinkler.org/building-residential-fire-sprinklers>. A cost estimate to upgrade the house with fire sprinklers shall be made available to the owner.

Please contact my office at 243-0554, if you have questions regarding the following two (2) items:

14. The following information is provided for the reference of the applicant as many lakefront properties are associated with locations of Native effigy mounds and archaeological sites.

Burial Sites Preservation (§ 157.70):

(2r) Site Disturbance Prohibited. Except as provided under subs (4) and (5) and State Statute 157.111 and 157.112, no person may intentionally cause or permit the disturbance of a burial site or catalogued land contiguous to a catalogued burial site.

(3) Report of Disturbed Burial Sites. (a) Except as provided under s. 979.01, a person shall immediately notify the Wisconsin Historical Society (608-264-6502) if the person knows or has reasonable grounds to believe that a burial site or the catalogued land contiguous to a catalogued burial site is being disturbed or may be disturbed contrary to the requirements of subs. (4) and (5).

Many lakefront properties are associated with locations of Native American effigy mounds and archeological sites. This site is known to be associated with archeological and historic resources. The Burial Sites Preservation statute requires that the property owner contact the Wisconsin Historical Society to discuss the location of the proposed project and any possible disturbance of an archaeological or historic resource before the work commences. During the construction work, if a burial site disturbance occurs, the work shall stop immediately until the Wisconsin Historical Society is able to assess the site.

Specific questions regarding the comments or conditions contained in this letter should be directed to the commenting agency.

Please now follow the procedures listed below for obtaining permits for your project:

1. After the plans have been revised per the above conditions, please file **seven (7) sets** of complete, fully dimensioned, and to-scale plans, the appropriate site plan review application and fee pursuant to Section 28.206 of the Zoning Code, and any other documentation requested herein with the Zoning Administrator, 126 S. Hamilton Street. **This submittal shall all also include one (1) complete digital plan set in PDF format.** The sets of final revised plans or documents will be circulated by Zoning staff to the City department staff listed above for their final approval.
2. This letter shall be signed by the applicant to acknowledge the conditions of approval and returned to the Zoning Administrator when requesting conditional use approval.
3. A demolition or removal permit is valid for one (1) year from the date of the Plan Commission. Where the plans have not been altered since issuance of the demolition or removal permit and the permit has expired, the Director of Planning and Community and Economic Development may, after consultation with the Alderperson of the District, approve an extension for up to 24 months from the expiration date.
4. A conditional use approval is valid for one (1) year from the date of the Plan Commission approval. During this time, the applicant must either lawfully commence the use or obtain a building permit and begin erecting the building. If the applicant obtains a valid building permit, construction must commence within six (6) months of the date of issuance. The building permit shall not be renewed unless construction has commenced as is being diligently prosecuted.

5. Any alteration in plans for a proposed alternative use shall require Plan Commission approval, except for minor alterations. The Zoning Administrator may issue permits for minor alterations or additions which are approved by the Director of Planning and Community and Economic Development and are compatible with the concept approved by the City Plan Commission and the conditional use approval standards.
6. The Plan Commission retains continuing jurisdiction over all conditional uses for the purpose of resolving complaints against all previously approved conditional uses.

If you have any questions regarding obtaining your conditional use or building permits, please contact the Zoning Administrator at (608) 266-4551. If you have any questions or if may be of any further assistance, please do not hesitate to contact my office at (608) 243-0554.

Sincerely,

Sydney Prusak
 Planner

<p>I hereby acknowledge that I understand and will comply with the above conditions of approval for the conditional use permit.</p> <p>_____</p> <p style="text-align: center;"><i>Signature of Applicant</i></p> <p>_____</p> <p style="text-align: center;"><i>Signature of Property Owner (if not the applicant)</i></p>
