## Introduction

The City of Madison's Urban Design Commission (UDC) has been created to:

- Encourage and promote high quality in the design of new buildings, developments, remodeling, and additions so as to maintain and improve the established standards of property values within the City.
- Foster civic pride in the beauty and nobler assets of the City, and in all other ways possible assure a functionally efficient and visually attractive City in the future.

## Types of Approvals

There are three types of requests considered by the UDC:

- Informational Presentation. A request for an Informational Presentation to the UDC may be requested prior to seeking any approvals to obtain early feedback and direction before undertaking detailed design efforts. Applicants should provide details on the context of the site, design concept, site and building plans, and other relevant information to help the UDC understand the proposal and provide feedback. (Does not apply to CDR's or Signage Modification requests)
- Initial Approval. Applicants may, at their discretion, request Initial Approval of a proposal by presenting preliminary design information. As part of their review, the Commission will provide feedback on the design information that should be addressed at Final Approval stage.
- Final Approval. Applicants may request Final Approval of a proposal by presenting all final project details. Recommendations or concerns expressed by the UDC in the Initial Approval must be addressed at this time.

## Presentations to the Commission

The Urban Design Commission meets virtually via Zoom, typically on the second and fourth Wednesdays of each month at 4:30 p.m. Applicant presentations are strongly encouraged, although not required. Prior to the meeting, each individual speaker is required to complete an online registration form to speak at the meeting. A link to complete the online registration will be provided by staff prior to the meeting. Please note that individual presentations will be limited to a **maximum of three (3) minutes**. The pooling of time may be utilized to provide one speaker more time to present, however the additional time will be based on the number of registrants from the applicant team, i.e. two (2) applicant registrants = six (6) minutes for one (1) speaker.

Primarily, the UDC is interested in the appearance and design quality of projects. Emphasis should be given to the site plan, landscape plan, lighting plan, building elevations, exterior building materials, color scheme, and graphics. Please note that presentation slides, in a PDF file format, are required to be submitted **the Friday before** the UDC meeting.

Letter of Intent, UDC Informational Review

Proposed Sherman Middle School – Malcolm Shabazz High School

Jessica Vaughn  
Urban Design Commission Secretary  
City of Madison Planning Division  
Madison Municipal Building, Suite 017  
215 Martin Luther King, Jr. Blvd.  
P.O. Box 2985  
Madison, WI 53701-2985

Dear Ms. Vaughn:

Madison Metropolitan School District is proposing to construct a new combination Middle School – Small High School to replace the current school on the existing site located at 1601 N. Sherman Ave, Madison, WI 53704. The new school will be constructed on the unused portion of the site while the existing school is in use. Upon completion of the new construction the existing building will then be demolished with new parking and green space constructed on the site. As this is a public institutional building, the School District is requesting an informational review by the Urban Design Commission at the next scheduled Commission Meeting on June 11, 2025.

The School District is planning to submit Land Use application and CSM on July 14, 2025 and anticipate Common Council approval on September 16, 2025. It is the School District's objective to start site infrastructure construction and site development in early 2026, with building completion set for July 2027.

The proposed Sherman Middle School – Shabazz High School is a 145,000gsf two story structure, that will house sixth thru eight for the middle school portion of the facility and ninth thru twelfth grade for the high school. Functionally, the new school will operate the same as the existing school, with typical staffing levels of 100 people. . Since the school is important component of the community's school system, the site and building require special considerations for site access with safe and separate circulation for public entrances as well as separation between yellow bus and vehicle.

Enclosed for review please find the proposed site plan and architectural plans and elevations. Please contact Susan Bowersox with OPN Architects or Scott Chehak

with Madison Metropolitan School District if additional information is needed prior to the upcoming review meeting.

We look forward to the Commission's commentary. Thank you.
