

LANDMARKS COMMISSION MEETING REPORT

June 2, 2025

Agenda Item #: 5
Project Title: Kennedy Road Charging Station - Section 106 Review (District 18)
Legistar File ID #: 88466
Prepared By: Heather Bailey, Preservation Planner
Members: Present: Ald. John Duncan, Edna Ely-Ledesma, Molly Harris, Katie Kaliszewski, Jacob Morrison, and Maurice Taylor
Excused: Richard Arnesen

Summary

Mike Cechvala, registering neither in support nor in opposition and available to answer questions

Bailey provided background information on the project, noting that there is a potential historic resource loosely in the vicinity, but the bus stop is not on that side of the street. She said that she supported the finding of No Adverse Effect.

Mike Cechvala, Madison Metro, provided more details on the charging station.

Kaliszewski asked if there were concerns with archaeology. Bailey said that staff is providing comments related to archaeology separately in order to keep the location of those resources private.

Kaliszewski said that she didn't think they needed to remain a consulting party for this project. She agreed there was little potential for impact to above-ground historic and architectural resources.

Harris suggested the report include a picture of what the charging station will look like.

Action

A motion was made by Harris, seconded by Ely-Ledesma, that the commission has no comments at this time and agrees with a determination of No Adverse Effect. They do not need to remain a consulting party. The motion passed by voice vote/other.
