

**NOTICE OF PUBLIC HEARING  
BEFORE THE BOARD OF PUBLIC WORKS  
FOR  
PLANS, SPECIFICATIONS, AND SPECIAL ASSESSMENTS  
FOR  
PUBLIC WORKS IMPROVEMENTS  
MADISON, WISCONSIN**

**PART I**

The Common Council of the City of Madison, Wisconsin, having heretofore decided that it is expedient and necessary that the improvements as listed in Part II hereof be improved at the expense of the property thereby on which would be conferred some special benefit.

NOW, THEREFORE, NOTICE IS HEREBY GIVEN:

That the City Engineer has prepared plans, specifications, a proposed schedule of assessments, and an estimate of the entire costs of the improvement for each of the districts listed in Part II hereof, and;

That the plans, specifications, a proposed schedule of assessments, and an estimate of the entire cost of the improvements listed hereto are available and open to inspection by all interested persons in the office of the City Engineer, Room 115, City-County Building, 210 Martin Luther King Jr. Blvd., between the hours of 7:30 a.m. and 4:00 p.m., Monday through Friday, and will so continue to be for ten (10) working days from the first published date of this notice, and;

That on **WEDNESDAY, NOVEMBER 30, 2011, AT 6:30 P.M.**, the Board of Public Works will hold a public hearing in, **ROOM 108 (PARKS CONFERENCE ROOM) OF THE CITY COUNTY BUILDING** and will consider any objections that may be filed in writing or in person and hear all persons desiring to be heard, and;

That special assessments may be paid over an eight (8) year period or fifteen (15) year period, with the owner paying 1/8 or 1/15 of the principal each year plus two and a half (2.5%) percent interest on the unpaid balance, as determined by the Board of Public Works.

That if the total assessment is paid in full before October 31st in the year that the billing is made, irrespective of project completion, then no interest shall be charged.

The City's TDD number is (866)-704-2315

If you require an interpreter, materials in alternate formats, or other accommodations to access this public hearing, please contact the Engineering Division at phone (608) 266-4751. Please make contact at least 24 hours prior to the date of this public hearing so that we can make proper accommodations.

November 17, 2011

**To: Property Owners along South Fairchild St, West Doty St and South Carroll St**

**Re: Public Hearing before Board of Public Works  
November 30, 2011 6:30 P.M.  
Parks Conference Room, Room 108, City County Building  
210 Martin Luther King Jr. Blvd.  
Madison, WI**

The City of Madison is proposing to reconstruct the utilities and pavement along the above referenced streets in 2011. You are being sent this letter to notify you of a public hearing before the Board of Public Works regarding the project, at the above referenced date, time & location. City Engineering will make a short presentation at the meeting, followed by the public hearing. The project will involve special assessments to owners of property adjacent to the project. Attached to this letter is a Schedule of Assessments, which shows estimated costs for each property adjacent to the project.

The proposed project limits are as follows:

- S. Fairchild St. from W. Washington to W. Doty
- W. Doty St. from S. Fairchild to MLK Jr.
- S. Carroll St. from W. Doty to W. Wilson

The proposed work on S. Fairchild Street is a complete street reconstruction including new curb and gutter, sidewalk, pavement, sanitary sewer, water main, storm sewer, drive aprons, street/pedestrian lighting and street trees. W. Doty Street will have new pedestrian lighting and street trees installed and sidewalk will be replaced as necessary. The proposed work on S. Carroll Street is an underground utility improvement with street resurfacing. There will also be an addition of pedestrian lighting and street trees with curb and gutter and sidewalk replaced as necessary. The project is scheduled to take place during the spring and summer of 2012 with a tentative start date of the end of March.

### **Street Improvements**

The proposed street improvements include removing and replacing asphalt and concrete pavement and drive aprons and curb and gutter as necessary. Sidewalk adjacent to the street will be removed and replaced on an as needed basis, to repair any unsafe or damaged sections. Where concrete terrace does not exist, terrace sidewalks, walks that lead from the curb to mainline sidewalk, will be removed **and not** replaced unless requested by the property owner.

The City and the property owners adjoining the reconstruction will share the cost of the street improvements. The City shares the cost on a 50-50 basis with the property owners for removing and replacing the curb and gutter, drive aprons and sidewalk on previously improved streets. The City assumes the entire cost for the new pavement and storm sewer improvements. The City also assumes the cost for curb and gutter and sidewalk ramps located at each street intersection. The property owner assumes 100% of the cost of pedestrian street lighting. The attached Schedule of Assessments shows a breakdown of costs for each street reconstruction item and the total estimated cost to be assessed to each adjacent property owner. Please contact Eric Dundee, the Project Engineer, at 266-4913, with any

questions regarding the street reconstruction.

### **Sanitary Sewer Main and Lateral Replacement**

The sanitary sewer main and laterals within the limits of this reconstruction project were constructed dating between 1913 and 1930 with some main being replaced in 1973. The sanitary sewer main will be replaced on S. Fairchild St and S. Carroll St with the project and will not be assessed to the properties. Sanitary sewer laterals are owned by the property owners and it is their responsibility to maintain them. It is the City of Madison Engineering Division's policy to pay for 75% of the cost to replace sanitary laterals within the public right of way (the length of sewer lateral between the sanitary sewer main and the property line) while the property owner is assessed the remaining 25% of that cost. The estimated property owner's share of the cost for lateral replacement within the public right of way is listed on the Schedule of Assessments. Replacement of the sanitary sewer lateral from the property line to your home is solely your responsibility and will not be coordinated or funded by the City. If you have questions regarding the replacement of your sanitary lateral please contact Mark Moder, of my staff, at 261-9250.

### **Storm Sewer**

The storm sewer main, leads, and inlets will be replaced as part of this project. The costs to connect existing private connections to curb (often downspouts or sump pumps) are assessable (existing connections to an inlet or manhole will be reconnected at no cost). If you are aware of any existing private connections you have to the storm sewer system (either the curb or a structure) or would like a private connection to be provided as part of this project, please contact the storm sewer engineer. Sally Swenson is the storm sewer designer for this project; you may contact her with questions regarding storm sewer laterals at 266-4862.

### **Water Main and Water Service Laterals**

The water main will be replaced on S. Carroll St with the project. The existing water main on the street was installed in 1885. The City will abandon the old main that currently serves the properties and will connect all of the properties to the new water main. Property owners will not be assessed for the new water main. Please contact Dennis Cawley of the Madison Water Utility at 261-9243 with questions regarding water main and lead service replacement.

### **Street Landscaping and Lighting**

The proposed streetscape includes the addition of pedestrian street lighting and trees. All work is proposed to be in the street terrace.

The plan proposes adding pedestrian scale lighting poles to match those installed in 2011 on N Webster and E Dayton Streets of the Outer Loop, as well as previously installed on 200-600 W Doty and many other downtown streets. The cost of the materials and installation is assessed to property owners. Thereafter, energy and maintenance are done at City cost. All wiring for lighting is underground. Questions regarding the lighting design and lighting assessments can be directed to Dan Dettmann, 266-6536 or [ddettmann@cityofmadison.com](mailto:ddettmann@cityofmadison.com).

Tree locations will be marked and installed throughout the project limits. City Forestry will plant the planned trees in the fall of 2012.

Two trees will be removed during the project. Both trees are six inch diameter trees behind the sidewalk at 204 W Main St.

November 17, 2011

Page 3

During construction, it may be necessary to trim existing tree limbs and/or roots to accommodate the construction. Tree conflicts are often encountered with sanitary sewer lateral replacements. Tree roots that have caused sidewalk to heave will be cut back to allow construction of a level sidewalk. If, during the course of construction, it is determined that a tree must be removed, City Engineering will notify property owners adjacent to the tree to be removed, prior to removal.

With the nature of this work, property owners should anticipate that most of the terrace will be disturbed, therefore, any plantings or special landscaping features that an owner wishes to save from damage should be removed from the terrace area prior to the start of construction.

### Special Assessments - General

A special assessment is a special charge for work that the City is planning to complete. The attached Schedule of Assessments shows an *estimate* of the property owners' share of the project costs based upon the City's assessment policy. After the project is bid, and work is complete, a final assessment will be calculated based on bid prices and work actually performed. The final assessment, which will be billed after the completion of the project, is payable in one lump sum or over a period of 8 years, with 2.5% interest charged on the unpaid balance.

### Accommodation Requests

To request accommodations for special needs or disabilities or if you have any other questions regarding this project, please contact the Project Engineer, Eric Dundee at [edundee@cityofmadison.com](mailto:edundee@cityofmadison.com) or 266-4913. This includes requests relating to the Public Hearing and also requests relating to the actual operations of construction.

Sincerely,

Robert F. Phillips, P.E.  
City Engineer
