

Memo

From: Sarah Lim

Date: 9/5/2017

Re: Emergency Solutions Grant, Transitional Housing Program, Homeless Prevention Program (ETH)

This substitute request changes the amount of the ETH funds to be administered by the City of Madison Community Development Division from \$622,923 to \$637,098. The Community Development Division received an email from the State of Wisconsin Department of Administration on September 8, 2017, stating that the Emergency Solutions Grant (ESG) amount will be increased by \$14,175. Attached are the emails from the Wisconsin Department of Administration with updated funding information.

Additional ESG funds will be awarded to programs already approved by the Homeless Services Consortium Board of Directors for ESG funding including The Salvation Army of Dane County and Tenant Resource Center as well as City of Madison for administration costs associated with contract management.
