Yes we aware but that does not mean the informational meeting occurred. They may not approve the permit bc of that.

Let me know what happens today and if they don't approve it will be easy to get things accomplished this month in time for the March meeting.

Last time when we went there they just want to make sure that we spoke with the association and is aware about the business that we are making

The neighborhood association does not have an opinion bc we have not attended the informational meeting required by ALRC. The city requires a certain amount of notice for those meetings. It's not a meeting we typically organize bc we are not on the permit. We are aware of your application but have not reviewed or had a chance to check with neighbors etc.

I stopped by Saturday and saw your orange sign had a meeting date in January. Did that meeting occur?

Did you ask the city what the requirements are for the meeting? I sent an email last week asking you to do that. Did you get a response from the city clerk?

Let me know what the city said and we can coordinate the next steps if we can assist.

Hi

My name is Ryan Koglin. I am reaching out on behalf of the SASY neighborhood association. Someone from the city said you were trying to reach us. I don't see any emails in our inbox.

Typically, we would invite a new business to our monthly neighborhood meeting to discuss plans and answer questions.

Please let me know if any information I can share with the board and neighbors.

Ryan Koglin
SASY board President
