Property Owner's Signature: _____ Date: _____

NOTICE REGARDING LOBBYING ORDINANCE: If you are seeking approval of a development that has over 40,000 square feet of non-residential space, or a residential development of over 10 dwelling units, or if you are seeking assistance from the City with a value of \$10,000 (including grants, loans, TIF or similar assistance), then you likely are subject to Madison's lobbying ordinance (Sec. 2.40, MGO). You are required to register and report your lobbying. Please consult the City Clerk's Office for more information. Failure to comply with the lobbying ordinance may result in fines.

4. APPLICATION SUBMISSION REQUIREMENTS (see checklist on reverse)

All applications must be filed by 12:00 pm on the submission date with the Preservation Planner. Applications submitted after the submission date or incomplete applications will be postponed to the next scheduled filing time. Submission deadlines can be viewed here: https://www.cityofmadison.com/dpced/planning/documents/LC_Meeting_Schedule_Dates.pdf

APPLICATION SUBMISSION REQUIREMENTS CHECKLIST:

In order to be considered complete, every application submission shall include at least the following information unless otherwise waived by the Preservation Planner. **All application materials should be submitted electronically to landmarkscommission@cityofmadison.com.** Please note that an individual email cannot exceed 20 MB.

- Landmarks Commission Application w/signature of the property owner.
- Narrative Description/Letter of Intent addressed to the Landmarks Commission, describing the location of the property and the scope of the proposed project.
 - Photographs of existing conditions;
 - Photographs of existing context;
- Architectural drawings reduced to 11" x 17" or smaller pages which may include:
 - Dimensioned site plans showing siting of structures, grading, landscaping, pedestrian and vehicular access, lighting, signage, and other features;
 - Elevations of all sides showing exterior features and finishes, subsurface construction, floor and roof;
 - Floor Plan views of levels and roof;
 - For proposals of more than two (2) commercial or residential or combination thereof units, a minimum of two (2) accurate street-view normal perspectives shown from a viewpoint of no more than five (5) feet above existing grade.
- ****Landmarks Commission staff will preliminarily review projects related to the construction of additions and/or new construction with Zoning staff in order to determine the completeness of the submission materials. Applicants are encouraged to contact Zoning staff to discuss projects early in the process;
- Any other information requested by the Preservation Planner to convey the aspects of the project which may include:
 - Perspective drawing
 - Photographs of examples on another historic resource
 - Manufacturer's product information showing dimensions and materials;
 - Other _____

RE: Basketball Court Replacement at Tenney Park

The City of Madison Parks Division wishes to submit the following project for approval by Landmarks Commission. Please consider this narrative and description of construction activities and the attached preliminary plans for review.

The planned project activities consist of the replacement of the existing basketball courts at Tenney Park.

There currently exists two basketball courts located on the island at Tenney Park. One court is a small full court and the other a small half court. Neither of these courts are regulation size. The condition of the existing asphalt and hoops is poor and the courts are at the end of their useful lifespan. If Parks Division wishes to continue to provide basketball at Tenney Park, the courts will need to be replaced.

The proposed project proposes to replace the existing courts with a single, full court, regulation sized court. The new court would be in the same approximate location as existing. The orientation would change to north/south and a small asphalt connection path would be added to provide required ADA access. The exact size, location, and dimensions of the court can be seen on the attached preliminary construction plans.

Both the existing and proposed courts are asphalt. Construction would involve removal of the existing asphalt, underlying gravel base course, and hoops. The new court would be graded to the recommended 1% cross slope, new hoops would be installed, and court markings painted. The new arrangement would represent a small reduction in impervious area in the park.

If there are any questions with the above information please contact or Corey Stelljes at cstelljes@cityofmadison.com or (608) 266-6518.

Sincerely,

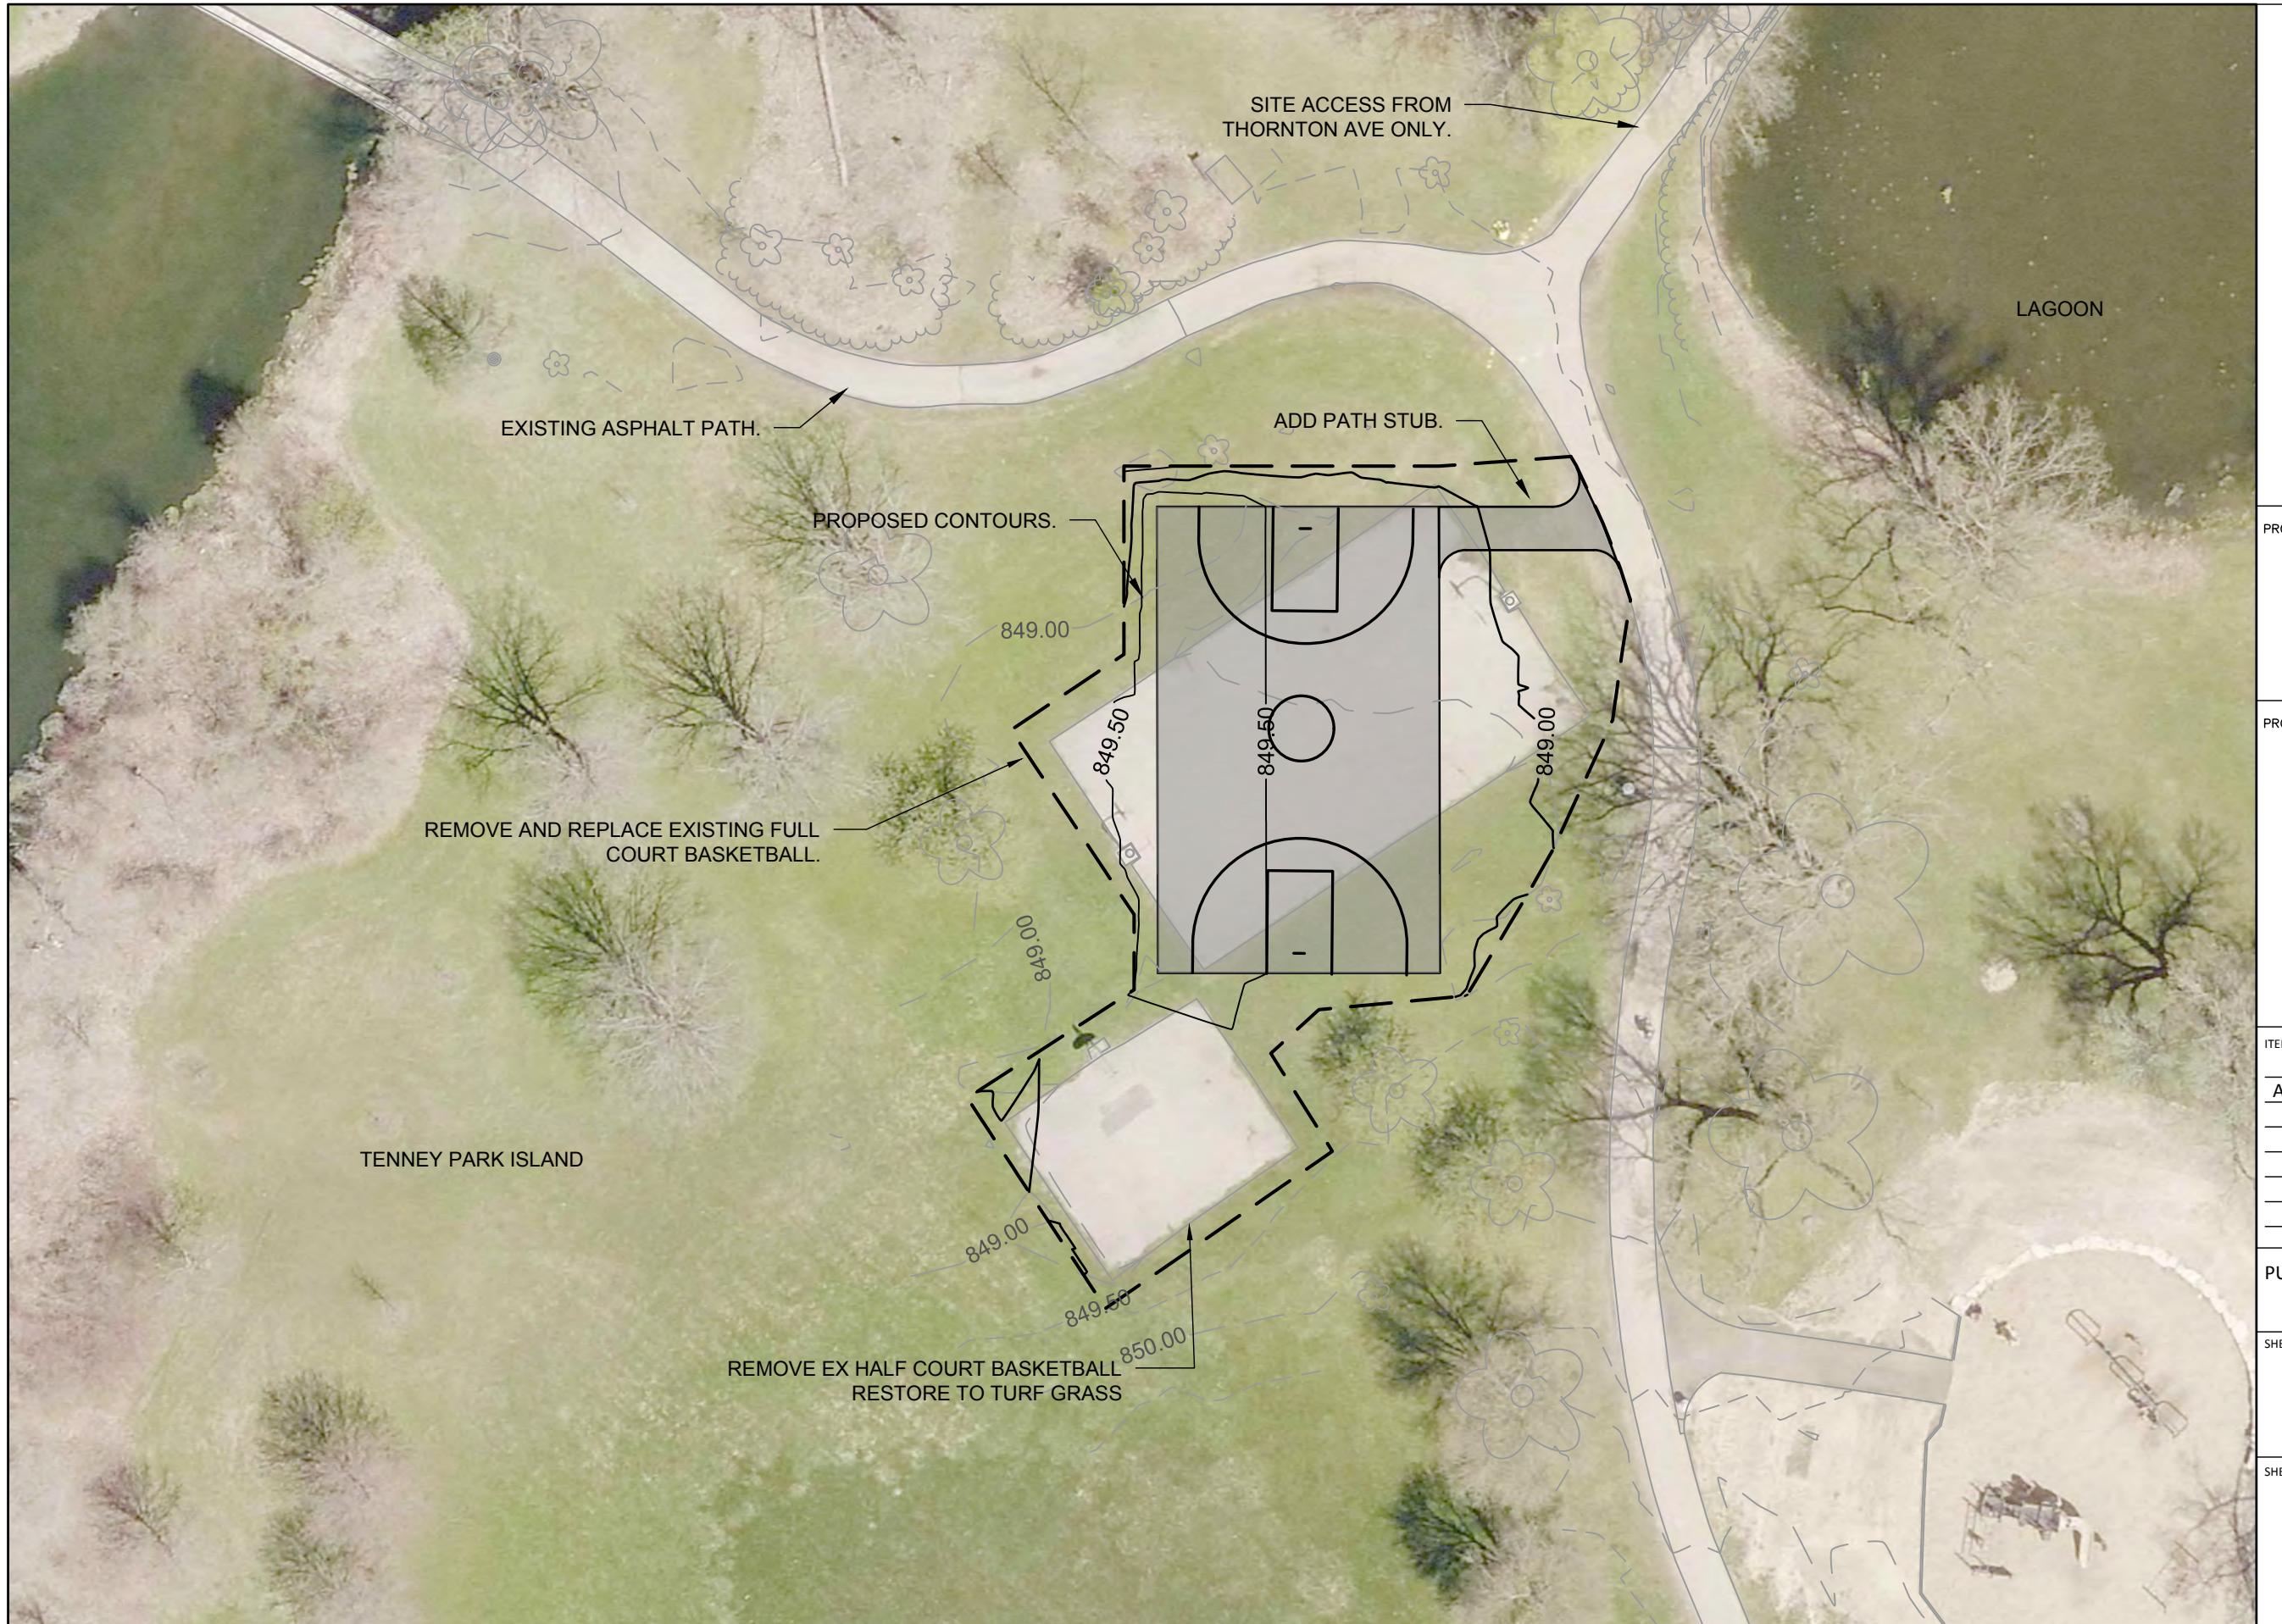

A blue ink signature of Eric Knepp, which appears to be a stylized "E" and "K" followed by "N E P P".

Eric Knepp – Superintendent of Parks

BASKETBALL STANDARD TO BE USED
ON ALL COURTS. BASE SHALL BE
POURED CONCRETE PER DETAIL.

Pole shall be constructed of 6" square, 3/16" wall structural steel tube suitable for a 39" in-ground installation. 45° extension arm shall be 6" square, 3/16" wall structural tube with a 4" square, 1/8" wall steel tube horizontal support and 1/4" thick steel backboard support plate. Pole shall be designed so that rim mounts directly to pole to minimize stress on the backboard. Extension arm shall be mounted by means of 6 each 5/8" grade 8 bolts. Pole system shall provide a minimum setback from the front of pole to front of backboard of 60". Entire pole system shall have a textured black polyester powder coated finish and carry a lifetime functional warranty. Vertical pole shall be capped to keep out rain. Backboard shall be constructed of formed and welded steel with a 42" x 72" rectangular playing surface. Skin shall be 12 ga. mild steel and rear structure shall be 7 ga. and 10 ga. steel. All edges of the skin shall be formed in such a way that no shear edges are exposed. Boards with exposed shear edges shall not be considered equal. The backboard shall be coated with a white polyester powder coated finish and have an official-sized orange shooter's square. Backboards shall carry an unconditional lifetime functional warranty. Rim shall consist of two 5/8" diameter high strength steel rings welded together at a minimum of six places. Back and side plates shall be 3/16" thick and be continuously welded. The net attachment system shall be of a continuous type constructed of 3/16" x 1" steel with punched net attachment slots suitable for nylon (included) or chain (optional) nets. Individual or continuous wire formed netlocks are not an acceptable equal. Rim shall have an unconditional lifetime warranty and orange powder coated finish. Installation to be completed in accordance to manufacturer's instructions. Do not scale drawings. Entire system weight shall be 525#.
