To Whom It May Concern,

This is a letter of intent regarding a requested alteration to the existing plan at 940 Williamson Street, Madison WI, "a pig in a fur coat."

We propose to add one door canopy, 6'6" wide and 4' deep over the door on the addition in front of a pig in a fur coat restaurant. We believe this change is needed to help match the look of the canopy currently in place. We would also like to add, in winter months only, removable side and door panels for each canopy. The vestibules created are needed as in winter months the patrons are blasted with cold winter air and snow whenever the door is opened. The canopies will not interfere with pedestrian traffic or detract from the overall look of the building or neighborhood. We believe the canopies improve the appearance of the front of the operation and help us identify the entrances. The winter temporary walls and doors allow patrons to enjoy their experience without being hit with cold winter weather whenever the doors are used.

Thanks, Dan School
