Subject: diving platform at B.B. Clark

Hello Ms. Lafave,

Thank you for giving me the heads up on the status of the diving platform at B.B. Clark.

I am asking that the platform / reflector issue at B.B. Clark be put on the agenda for the next Parks Commission meeting April 13, 2011.

Looking forward to hearing the kids that use the beach / platform inform the Commission how they feel about the loss of the platform. What a great opportunity for the kids to become active citizens in how decisions are made in their community.

Thanking you in advance,
Marie Jacobson
