Subject: ETH Contracts Update

Good morning ETH grantees –

Before the end of the week, each of your organizations will receive an email update from me regarding the 2017-18 ETH budget. Our team has been working closely with our fiscal department over the last several weeks to ensure that you receive your contracts in a timely fashion. We subsequently (and joyfully!) discovered additional ESG administrative funds that should result in each grantee receiving more assistance than we originally anticipated.

In the meantime, our fiscal team is preparing your contract documents for signature. They will reach out to you soon with further details.

Thanks and have a great day!

Matthew J. Sorensen
