Enclosed Submittals:

- Final Plat w/Legal Description
- Land Use Application (PUD Zoning Requested)
- Subdivision Application
- Site Plan
- Landscape Plan
- Project Narrative
- General Design Standards
- Associated Fees

Project Summary:

Cherokee Park, Inc (CPI) requests changing our existing PUD from one single condominium lot to a (4) lot final plat, including (3) fee simple saleable lots and (1) outlot which includes a wetland and subsequent 75' buffer zone. This outlot will be retained by CPI, Inc.

Existing Conditions and Uses:

The development is currently approved for the construction of (3) duplex homes on a single condominium lot. Changes in the real estate market and a general sentiment from the Cherokee Park Neighbors have led us to this change in application.

Development Schedule:

CPI intends to develop the entire site to include public utilities (nearly completed), streets, sidewalks, etc. in the summer of 2008, with individual lot sales and home construction to begin immediately following.

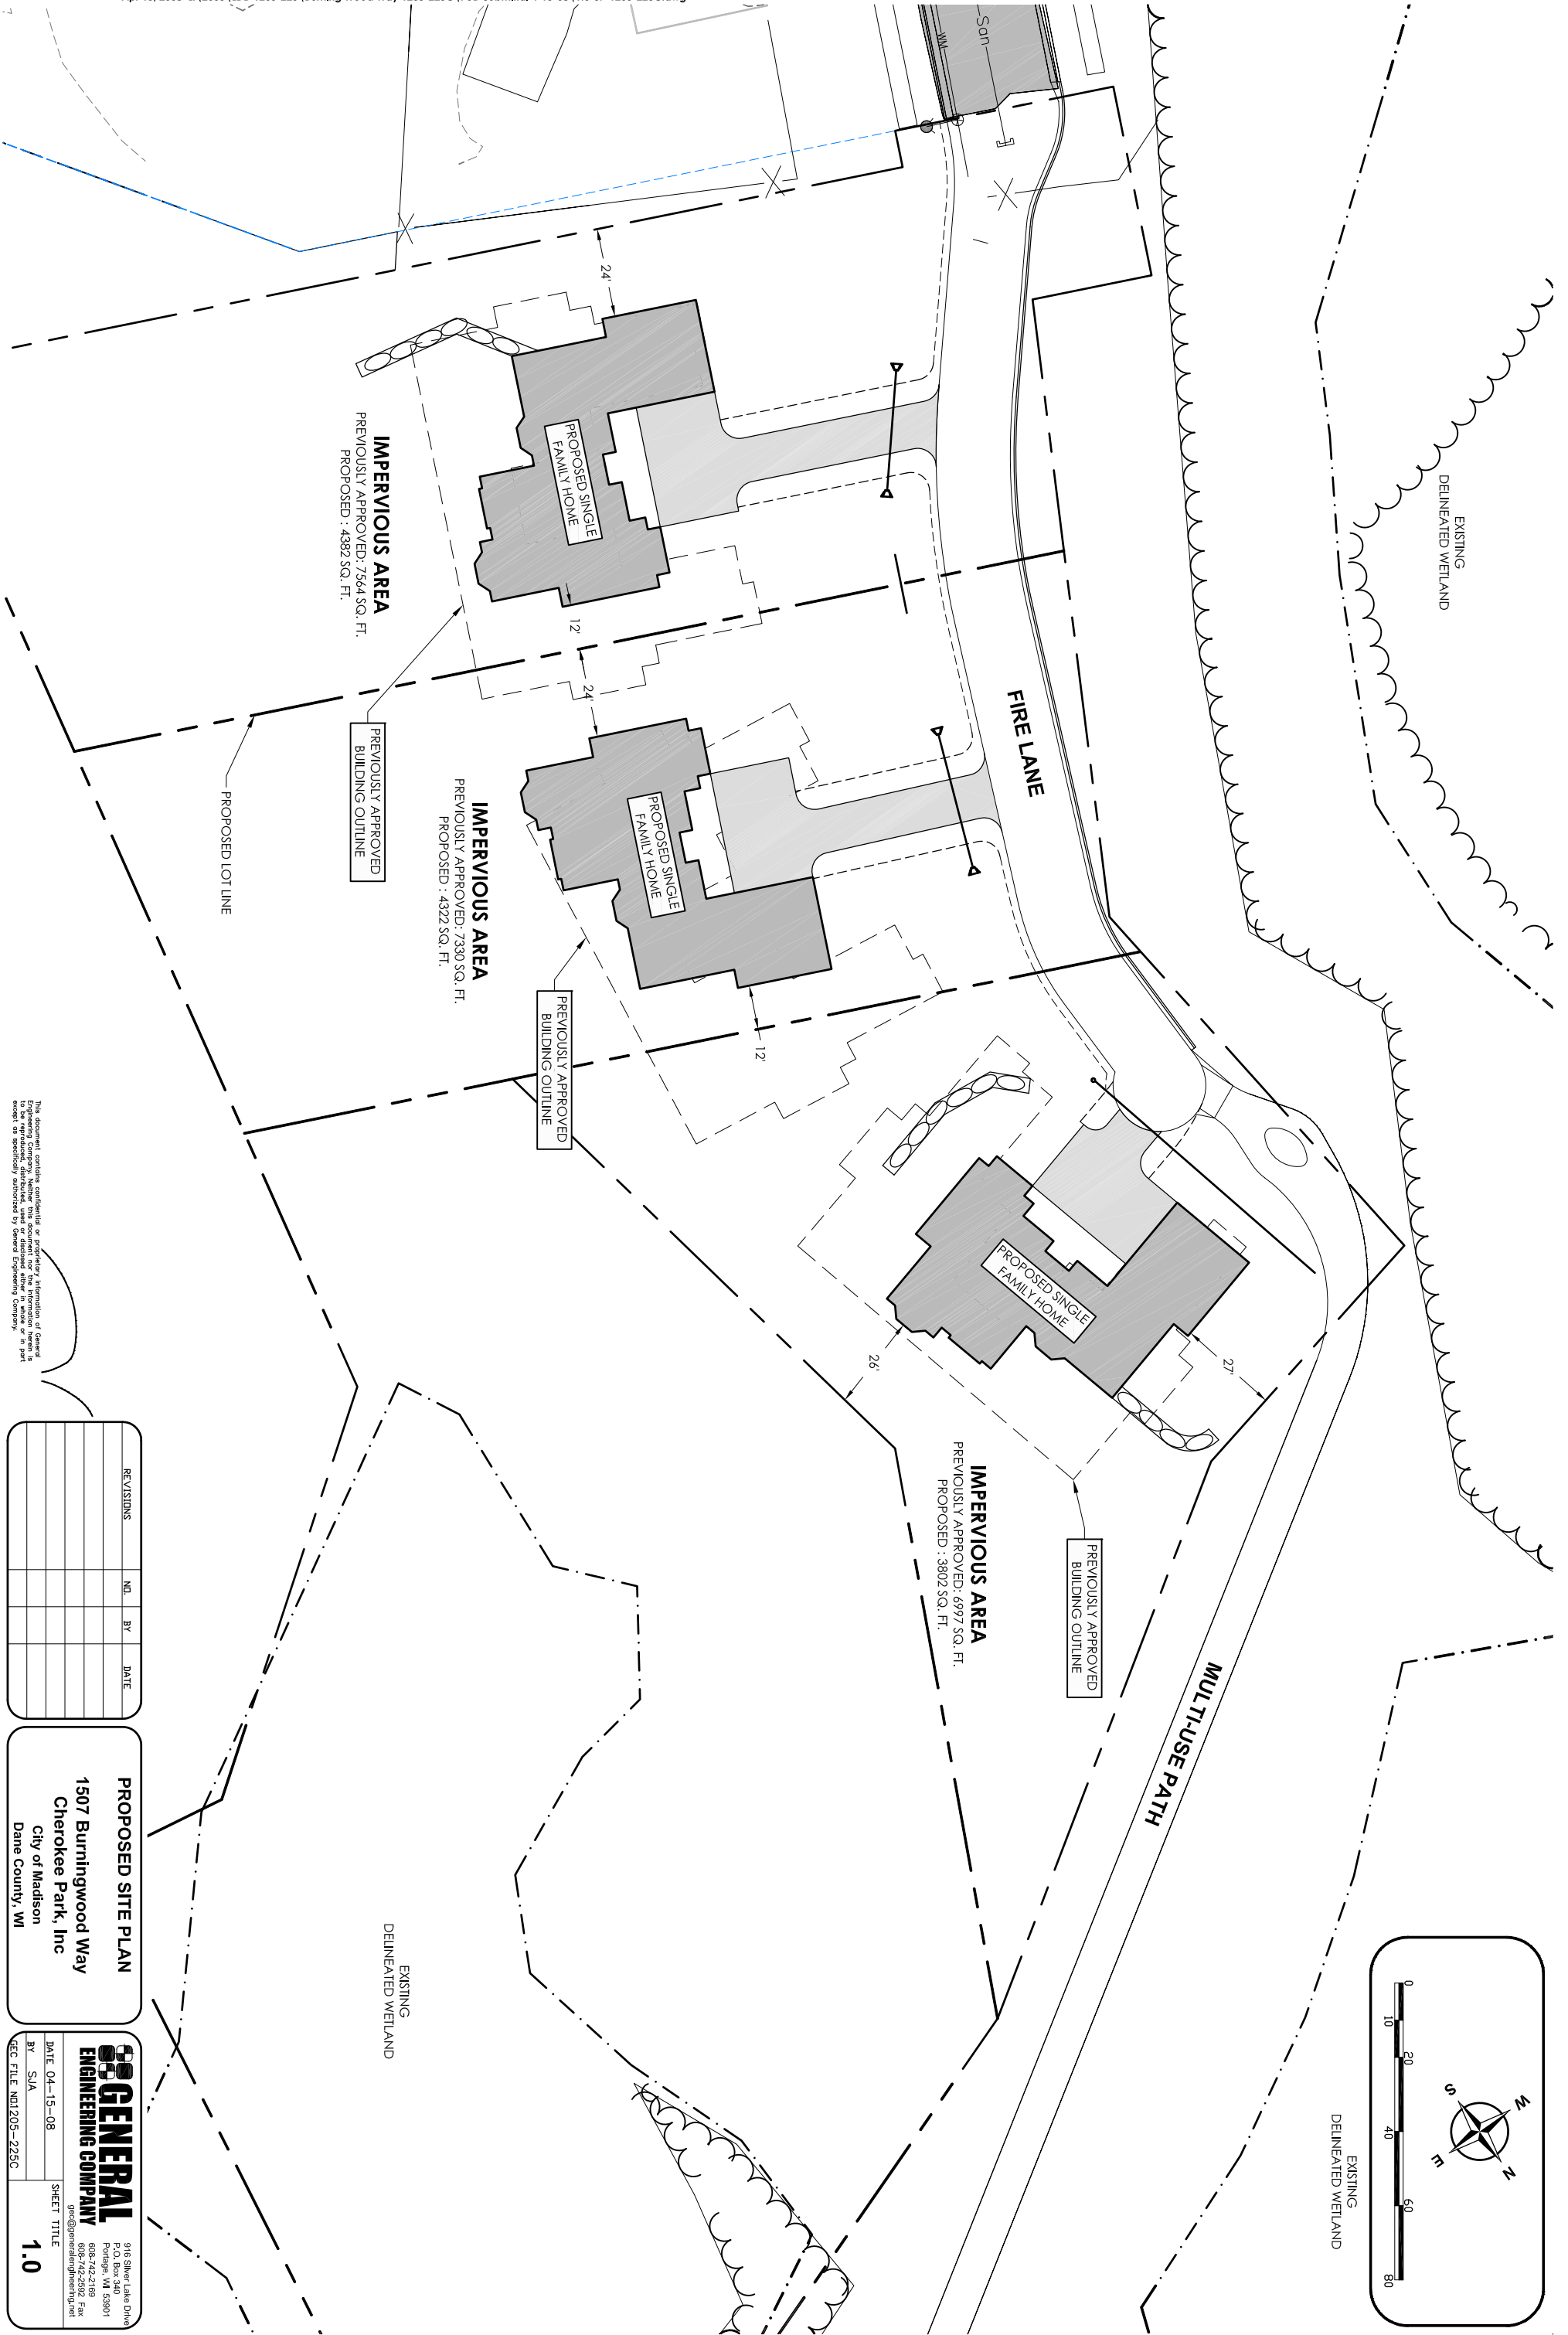

Character and Quality:

CPI will act as General Contractor in the building of the single family homes, and will reserve the right for architectural review.

CPI respects the natural beauty of the site and considers it as asset to developing a high-quality, urban, walkable neighborhood in a park-like setting.

Design character will be controlled with covenants and restrictions that include specific design standards for the entire development. The emphasis of these covenants will be on natural building materials and design with an 'eco-friendly' approach, as well as a strong emphasis on storm water management practices to protect the sensitive surrounding areas.

Proposed general design standards are attached.

BURNING WOOD WAY - PROJECT NARRATIVE

Cherokee Park, Inc. (CPI) intends to develop a high-quality, low density residential development 1507 Burning Wood Way, located at the north end of Burning Wood Way.

Consistency with Adopted Plans

The proposed 3 lot residential development is consistent with the recommendations of the Cherokee Park Special Area Plan adopted by the Common Council on January 16, 2007. The proposed development is also consistent with the Memorandum of Understanding executed between Cherokee Park, Inc. and the City of Madison that allows for the conveyance of Cherokee lands to the City of Madison for public park purposes.

Design Character

The proposed development will be designed with an “eco-friendly” approach for private lots, common areas and public streets. The proposed development places strong emphasis on stormwater management practices that will sensitively protect the surrounding natural areas. Design character will be controlled by covenants and restrictions which will include general design standards for the entire development area and will be consistent with the Neighborhood Development and Design Principles identified in the Cherokee Special Area Plan (page 16 – 17).

Building Design

CPI will act as the General Contractor in the construction of single family homes. CPI will reserve the right for architectural review based on covenants and design guidelines that will be prepared. The design of homes will focus on Prairie and Bungalow vernacular styles and will allow architectural freedom of expression within these architectural frameworks. The design of single family lots will focus on lot coverage, drainage, contours, and landscaping with an emphasis on “green” site and native vegetation requirements.

The design guidelines will identify ecologically sound building and site design principles. These principles will emphasize natural or recycled materials, energy efficiency, indoor air quality, and environmental impact. A basic priority ranking system will be developed to review proposed designs. The CPI Architectural Review Committee will identify how proposed designs adhere to the established design principles.

Exterior Materials and Details

The predominant exterior materials will be brick, natural stone, E.F.I.S. and cement board siding. No aluminum or vinyl siding is allowed. Consistent authentic architectural details will be used throughout to develop a cohesive neighborhood while allowing for individual choice.

Protection of Natural Features

The proposed development is designed to protect the existing natural features within the site and surrounding the site. Stormwater management facilities have been designed to protect the Cherokee Marsh to the greatest degree possible. The proposed development character will complement the natural character of the site including the landscaping and grading of common areas and the design of the interface between the residential development and the Cherokee Marsh Conservation Park. The development will be designed to comply with all applicable environmental corridor regulations.

BURNINGWOOD WAY

EXISTING DELINEATED WETLAND

PLANTS TO BE USED LIST
BURNINGWOOD WAY RESIDENTIAL DEVELOPMENT

KEY COMMON NAME	(BOTANICAL NAME)	SIZE
BB	BURNING BUSH (<i>Euonymus atropurpureus</i>)	5'-6' ht.
BN	BLADDERNUT (<i>Staphylea trifolia</i>)	5'-6' ht.
FH	FALSE HEATHER (<i>Hudsonia tomentosa</i>)	15'-18"
IB	INDIGO BUSH (<i>Amorpha fruticosa</i>)	4'-5' ht.
NJ	NEW JERSEY TEA (<i>Ceanothus americanus</i>)	15'-18"
RB	RIVER BIRCH (<i>Betula nigra</i>)	10'-12' ht.
SC	SHRUBBY CINQUEFOIL (<i>Potentilla fruticosa</i>)	15'-18"
SO	SWAMP WHITE OAK (<i>Quercus macrocarpa</i>)	2.5" cal.
WH	WITCH HAZEL (<i>Hamamelis virginiana</i>)	5'-6' ht.

ALL PLANTS ARE NATIVE TO DANE COUNTY ACCORDING TO THE NATURAL RESOURCES CONSERVATION SERVICE (NRCS)

- NOTES:**
1. BUILDING DOWN SPOUTS SHALL BE CONVEYED TO RAIN GARDEN & DETENTION AREA TO THE EAST.
 2. GARAGE DOWN SPOUT SHALL BE CONVEYED TO RAIN GARDENS TO THE WEST.
 3. AN ENGINEER SHALL BE PRESENT AT ALL TIMES DURING THE FINAL GRADING AND INSTALLATION OF PLANTS TO THE PROPOSED RAINGARDENS.
