Ms. Marla Eddy
City of Madison Urban Forestry
Madison Streets Division
1402 Wingra Creek Parkway
Madison WI 53715

Subject: Permit for Utility Line Clearance Operations

Dear Ms. Eddy:

Madison Gas and Electric Company (MGE) hereby applies for a permit to conduct utility line clearance operations including pruning and removal of trees in the public right-of-way of any street, alley, highway, or other area under the jurisdiction of the City of Madison.

MGE has an obligation to perform tree pruning under Chapter PSC 114 of the Wisconsin Administrative Code. This code adopts the National Electric Safety Code for Wisconsin which provides in Section 218 that trees interfering with ungrounded electric supply conductors must be pruned or removed. MGE is required by Chapter PSC 114, adopting this code, to maintain vegetation management services to prevent serious safety hazards caused by trees becoming intertwined with the electrical conductor.

Each tree located in the public right-of-way will be carefully assessed to determine pruning needs. MGE Forestry representatives will contact City Forestry if previously unknown conditions exist in which a tree may require a removal evaluation. Further, MGE will submit construction project-specific plans where clearance needs are greater than our past Line Clearance maintenance pruning.

Pruning operations will be conducted with the intent of providing four years of clearance from regrowth. MGE and its contractors will prune or remove trees in accordance with the American National Standards Institute (ANSI) A300 and ANSI Z133.1 tree care operation standards and in accordance with the written guidelines and directives of the City Forester.

MGE's contractors will begin conducting line clearance operations once the Habitat Stewardship Subcommittee approval is obtained and a permit is issued. The areas within the City of Madison projected to be affected by line clearance operations are listed by street name and block numbers. See Exhibit 1.

Tim Meisenheimer will assume the position of MGE Forestry Supervisor effective May 3, 2020 as I retire from my position at MGE.

Sincerely,

Cathy Brodbeck
Forestry Supervisor

Tree Pruning Notice

Your safety and electric service reliability are important to us. MGE will be pruning trees near our power lines in your neighborhood in 2021/2022; this is done to minimize tree-related storm damage and tree-caused electric system outages.

As a National Arbor Day "Tree Line USA Utility," we are concerned about the health and appearance of trees in your neighborhood. Our contract crews prune according to industry Best Management Practices as outlined by the International Society of Arboriculture. The crews also undergo yearly work- and safety-related training.

MGE works with the City Forester and the City of Madison Streets Division to plan tree pruning on the public rights-of-way of streets, alleys, and greenways. MGE's 2021 plan for pruning trees on the public rights-of-ways will be considered by the Habitat Stewardship Subcommittee on **Tuesday, May 11, 2021, at 4:30 P.M., via virtual meeting.**

If you wish to speak at the virtual meeting, you must register. You can register at *www.cityofmadison.com/MeetingRegistration*. When you register to speak, you will be sent an email with the information you need to join the virtual meeting. The Subcommittee will consider any objections that may be filed in writing or in person and hear all persons desiring to be heard.

If you require an interpreter, materials in alternate formats, or other accommodations to access this public hearing, please contact the Forestry Section at phone (608) 266-4816 or email us at aleair@cityofmadison.com. Please make contact at least 72 hours prior to the date of this public hearing so that we can make proper accommodations.

You will receive another notice prior to actual pruning.
