Caution: This email was sent from an external source. Avoid unknown links and attachments.

Hello Transportation Commission,

I'm writing in support of a permanent closure to the rush hour lanes. I have driven during this time and ridden my bike this time, and my experience in both wasn't impacted negatively. There was not an appreciable increase in car trusting traffic while riding on the side streets around Willy St and my travel times in Willy St in a car weren't affected.

The survey responses show this is popular amongst pedestrians and cyclists, which should be the target audience for a popular residential and commercial street. Vehicle throughput should not be the focus for this type of street.

Thanks for your consideration,
Ben Noffke
