Subject: 1 East Gilman St.

Hello,

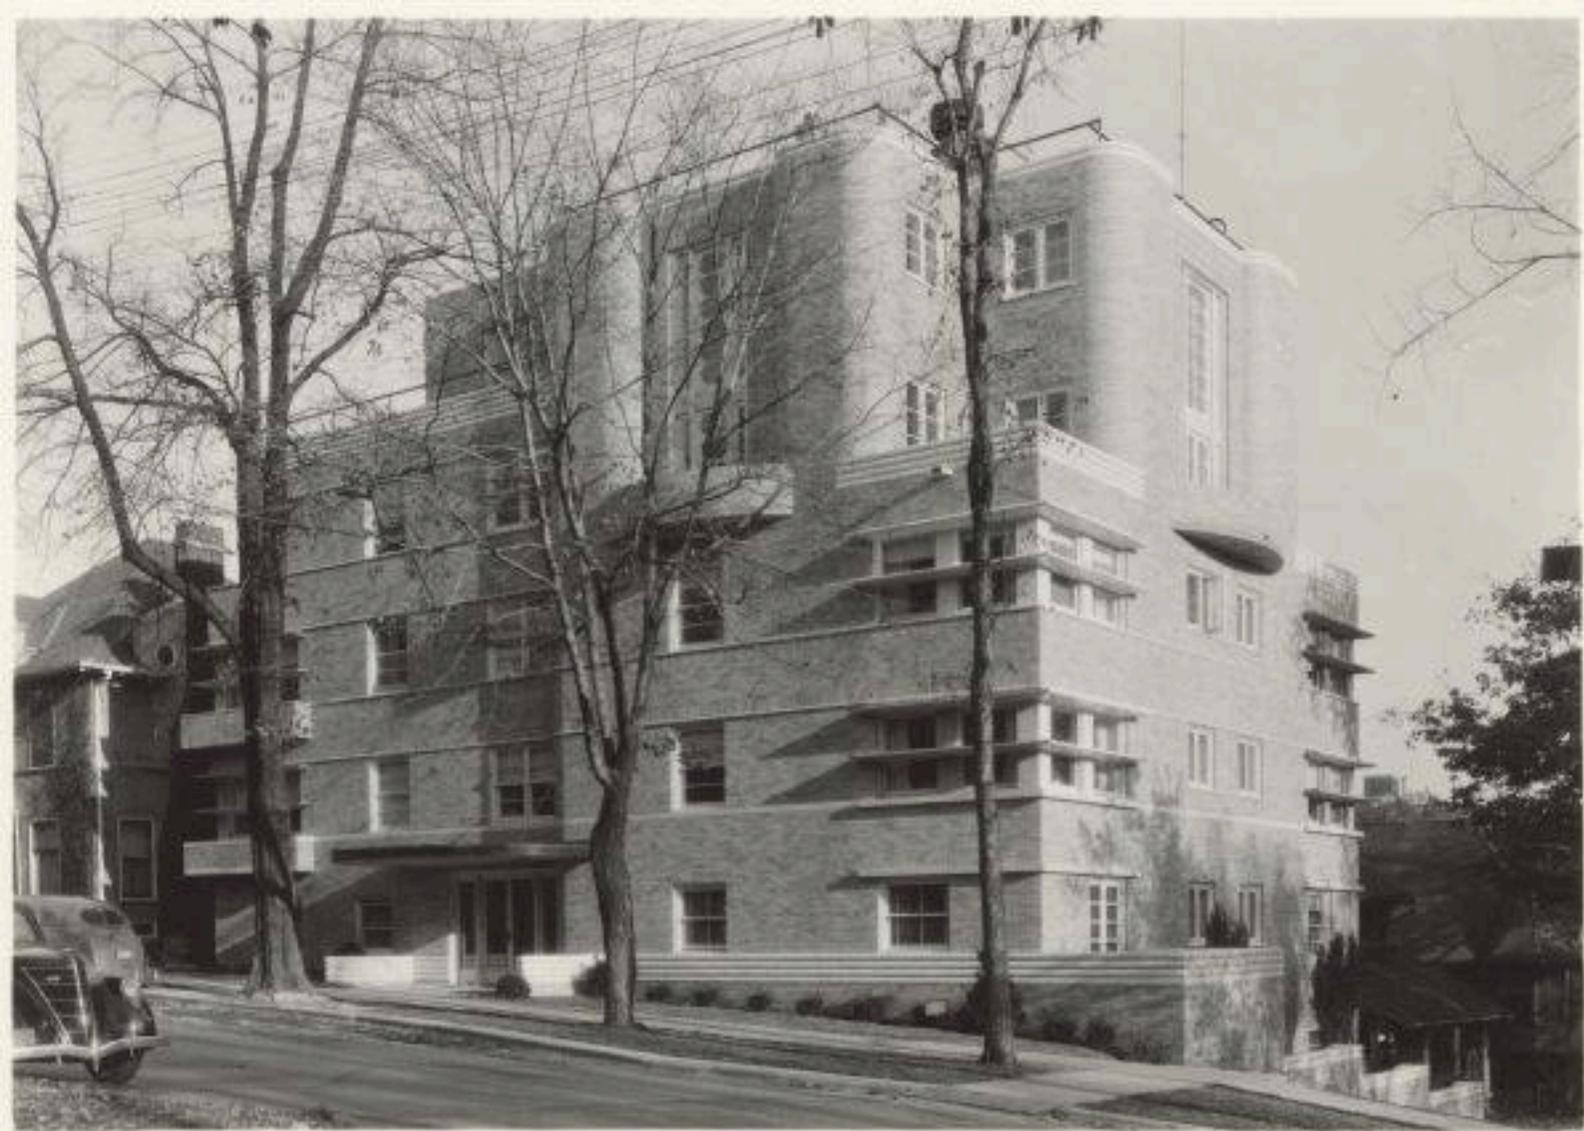

Joe Bonardi here, long time resident of 1 East Gilman St. and head volunteer of Period Garden Park, 110 East Gorham St.

This email I'm sending is in support of Ken Miller and his improvement of the front entrance of 1 East Gilman St.

I'm sorry that Ken did not follow proper procedure, but he as well as I, were not aware that something decorative needed approval, as apposed to something structural.

I completely disagree that the addition is not appropriate to the era of Art Moderne, as we have found many examples of the additional stripe to the chrome strip above the door way as almost common. I'm sending some examples in the attachments..

In an early photo of 1 East Gilman, it is possible to see what may have been original to the building, a striped chrome piece on the over hang.
