

Public Listening Session Results

from

January 3, 2007

at

Warner Park Community Recreation Center

These are the topics identified by the public and the number indicates the “dots” received during the priority setting exercise:

15	Pedestrian crossing of Sherman Avenue at park drive
14	Pedestrian crossings at Sherman/North Port and Trailways
10	Maintaining city control of scheduling and special events
9	Big picture traffic study of area
9	Enjoy fireworks
8	Keeping PA Sound within stadium / engineer sound to design
7	Storm water management planning
7	Traffic control lights or ped crossing lights at Sherman entrance
4	Focus on youth sports use of the park
4	More seating capacity
3	Alcohol – over use
2	Cost for groups to use stadium
2	Continued use by MSCR programs
2	Financial plan – more information needed
2	Fireworks noise and too many dates
1	Traffic demand planning
1	Softball player parking conflict
1	School night programming schedule / noise
1	Field maintenance for MSCR
1	LEED energy design
1	City help in paying for better sound system
0	ADA design consideration (probably because it is already the design standard that we use.)
0	Length of lease
