Re: Additional Concert at Breese Stevens Field

Eric,

Vern Stenman appeared before the TLNA Council on December 14, 2017, seeking support for an additional large concert at Breese Stevens Field in 2018, raising the number from six to seven. We understand that the purpose of the additional concert is to provide support to the Madison Parks Foundation, and further, that the Madison Parks Foundation will receive a portion of the ticket income from all of the large concerts.

The TLNA Council voted to support the additional large concert, for the 2018 season only. We wish to continue to monitor the impact of large concerts on our neighborhood.

With best regards,
