There are many people north of Madison who will be making the trip to Madison for Chik-Fil-A. I'm sure there will be other businesses such as gas stations and hotels which will also benefit. I think it sets a bad precedent to deny a business a permit because they believe in traditional marriage. As far as cruelty to animals, does the Global Conservation Group expect you to deny permits to future restaurants or close down every other restaurant in town that serves meat.

To whom it may concern,

I am emailing you today on behalf of the Global Conservation Group to kindly ask you to reconsider granting Chick-Fil-A a permit to build in Madison.

Thank you for your time:

My hope is that we can maintain an open dialogue on this sensitive matter and find a solution that works in the favor of everyone.

Sincerely,

Hunter Shaffer
