Alder Ochowicz,

The Villas Student Housing project team is working on a formal rezoning request for the redevelopment of the 425 N Frances/450 W Gilman properties for a 16-story student housing project. This pending submittal anticipates a demolition, rezoning (UMX to DC), and a conditional use request for the site and is being developed for the October 6th submittal deadline. This application date would lead to consideration at the November 19th Urban Design Commission, December 1st Plan Commission, and December 9th Common Council. This project will also be discussed for informational purposes at the September 15th Landmarks Commission and September 17th Urban Design Commission.

We have been working to set up a neighborhood meeting on September 22nd to share additional information with the neighborhood while the CANA neighborhood reactivates and are happy to meet with the neighborhood once it becomes fully active again.

Heather Bailey
Department of Planning & Development
City of Madison
215 Martin Luther King, Jr. Blvd.
Madison, WI 53710-2985

Attached please find the formal demolition request for the 425 North Frances/450 Gilman Street Redevelopment, a 16-story 118-unit mixed-use student housing project. This project is proposed by Villas Student Housing as a vibrant addition to the neighborhood that transitions in scale from the adjoining Grimm Book Bindery to the Hub while maintaining well-articulated architecture and massing.

Project Name: West Gilman Street Apartments

Properties: 425 North Frances Street

450 West Gilman Street

Applicant: Villas Student Housing, LLC.

506 West 22nd Street Austin, Texas 78705

Design Team:

Architecture: Rhode Partners

515 Congress Avenue

Suite 1600

Austin, Texas 76701

Engineering/Landscape: Vierbicher

999 Fournier Drive Madison, WI 53717

Entitlements: Vandewalle & Associates

120 East Lakeside Street Madison, WI 53715

Demolition Request:

Demolition of the existing buildings would be undertaken early 2026 with any reusable materials diverted from the landfill per the reuse & recycling plan.

Reuse and Recycling: See attached plan
Demolition Plan: See attached plan
Street Tree Report: See attached plan

Project Summary

Project Description:

Villas Student Housing is proposing a 16-story 118-unit redevelopment of the site featuring a range of unit types (1-5 bedrooms), student affordability, tenant amenities and street activated frontages through a lobby fronting Frances Street and a retail suite facing Gilman Street. The overall building design reflects input from the Landmarks Commission and Urban Design Commission as it seeks to implement the adopted plans while responding to the surrounding context and adjoining Grimm Book Bindery Building.

The project has been carefully designed to minimize the impact on the adjoining Grimm Book Bindery, a landmark building. While the emerging character along Gilman and Frances reflects the adopted 12 story designation in the Comprehensive Plan, this project has been designed to transition in scale from the Hub to the Grim Book Bindery, pulling the mass and height of the building back from Gilman Street and towards the hub. The design also replicates the existing "courtyard" setback along Gilman Street with an inset/fenced utility court and air gap separation from the zero-lot line building (allowing the existing zero lot line windows to remain).

The overall design of the building utilizes common datum lines from the Grimm Book Bindery along Gilman to create a strong lower-level tie between the buildings while using a modern design aesthetic to contrast the two buildings.

Existing Units: 10 units

Downtown Plan

This site is located within the State Street District of the Downtown Plan which calls for a vibrant mix of uses with ground floor retail/activation and incorporation of residential uses in support of the State Street corridor. Student focused recommendations within the plan call for "higher density housing suitable for a diversity of student populations in a variety of building types close to the UW Campus" (Recommendation 115) with this location noted as among the highest density of students per acre.

The Downtown Plan Maximum Building Height Map identifies this site as 12 stories/172' in height. The project meets this standard while utilizing the downtown height definition through the incorporation of affordable student housing. This project also meets the Capital View Preservation Limit with all elements designed to be below the required elevation.
