Alder Ochowicz,

The Villas Student Housing project team is working on a formal rezoning request for the redevelopment of the 425 N Frances/450 W Gilman properties for a 16-story student housing project. This pending submittal anticipates a demolition, rezoning (UMX to DC), and a conditional use request for the site and is being developed for the October 6th submittal deadline. This application date would lead to consideration at the November 19th Urban Design Commission, December 1st Plan Commission, and December 9th Common Council. This project will also be discussed for informational purposes at the September 15th Landmarks Commission and September 17th Urban Design Commission.

We have been working to set up a neighborhood meeting on September 22nd to share additional information with the neighborhood while the CANA neighborhood reactivates and are happy to meet with the neighborhood once it becomes fully active again.

Project Summary

Project Description:

Villas Student Housing is proposing a 16-story 118-unit redevelopment of the site featuring a range of unit types (1-5 bedrooms), student affordability, tenant amenities and street activated frontages through a lobby fronting Frances Street and a retail suite facing Gilman Street. The overall building design reflects input from the Landmarks Commission and Urban Design Commission as it seeks to implement the adopted plans while responding to the surrounding context and adjoining Grimm Book Bindery Building.

The project has been carefully designed to minimize the impact on the adjoining Grimm Book Bindery, a landmark building. While the emerging character along Gilman and Frances reflects the adopted 12 story designation in the Comprehensive Plan, this project has been designed to transition in scale from the Hub to the Grim Book Bindery, pulling the mass and height of the building back from Gilman Street and towards the hub. The design also replicates the existing “courtyard” setback along Gilman Street with an inset/fenced utility court and air gap separation from the zero-lot line building (allowing the existing zero lot line windows to remain).

The overall design of the building utilizes common datum lines from the Grimm Book Bindery along Gilman to create a strong lower-level tie between the buildings while using a modern design aesthetic to contrast the two buildings.

This site is located within the State Street District of the Downtown Plan which calls for a vibrant mix of uses with ground floor retail/activation and incorporation of residential uses in support of the State Street corridor. Student focused recommendations within the plan call for “higher density housing suitable for a diversity of student populations in a variety of building types close to the UW Campus” (Recommendation 115) with this location noted as among the highest density of students per acre.
