Please contact Tim Sobota, Metro Transit, at (608) 261-4289 if you have questions regarding the following four (4) items.

35. As identified on the plans submitted for review, Metro Transit recommends the creation of a new combined bus stop zone, with a pullout lane, on the south side of University Avenue east of Capital Avenue - so that buses can safely exit the active vehicle travel lanes for the time needed to actively load or unload passengers at this intersection, specifically new riders anticipated at this intersection due to the creation of multi-family residential units on this previously commercial property.

This combined bus stop zone would permit the elimination of the current bus stop zones along eastbound University Avenue (just west of the Capital Avenue intersection traffic signal), and on northbound Capital Avenue (just south of the existing driveway), that occupy the active travel lanes of these streets.

36. The applicant will need to grant appropriate rights to the City of Madison and Metro Transit that would permit access, maintenance and/or installation of certain infrastructure associated with the proposed bus stop zone shown on the plans submitted for review - including the area of the bus pad surface behind the sidewalk immediately east of the pullout lane, that would accommodate the existing passenger waiting shelter that is currently installed at the bus stop zone on University Avenue west of Capital Avenue.
37. The applicant shall include the location of these transit amenities on the final documents filed with their permit application so that Metro Transit may review and approve the design.
38. Comments above parallel the recommendations initially outlined for land use application LNDUSE-2017-00106 (5533 University Avenue-Brennan's Site: 56 units with 5600 SF of commercial space)

Specific questions regarding the comments or conditions contained in this letter should be directed to the commenting agency.

A resolution approving the CSM and authorizing the City to sign it and any other documents related to the proposed land division was approved by the Common Council on January 16, 2018.

As soon as the comments and conditions have been satisfied as verified with a completed affidavit form (attached), the original along with the revised Certified Survey Map, with all signatures and approvals from the reviewing agencies, shall be brought to this office for final sign-off. You or your client may then record the CSM at the Dane County Register of Deeds. For information on recording procedures and fees, contact the Register of Deeds at (608) 266-4141.

Upon acceptance and recording of the Certified Survey Map by the Dane County Register of Deeds, please transfer the recorded volume, document number, and page numbers to the copies and forward a copy to this office for our records. The original survey map with the recording information is permanently kept on file in the Dane County Register of Deeds Office. A copy of the recorded document can be obtained from the Register of Deeds Office, Room 110, City-County Building or the Real Estate Office in the Madison Department of Planning and Development.

Any appeal from this action, including the conditions of approval, must be filed with the Circuit Court within 30 days from the date of this letter. **The approval of this CSM shall be null and void if not recorded in twelve (12) months from the date of the approving resolution or this letter, whichever is later.**

If you have any questions or if may be of any further assistance, please do not hesitate to contact my office at (608) 261-9135.

Sincerely,

Chris Wells
